THE PRODUCTS OF JUNG'S SEEDS ARE UNEXCELLED

1941

# J. W. JUNG SEED COMPANY

Quality Seed Growers

RANDOLPH

WISCONSIN

GIANT TENDERGREEN

### Superb Green Pod Bush Bean Giant Tendergreen

Immense Yielder. Glant Tender Pods. Absolutely Stringless.

A new green podded bush bean, very productive, absolutely stringless, and bears heavy crops of the long handsome pods that are more tender and brittle than any other variety. The pods are 5 to 6 in. long, round and thick, very meaty, free from strings and of finest flavor. Bushes are unusually strong and vigorous; this variety easily ranks as the most desirable green podded bush bean. Pkt. 80.; 1/2 pt. 200.; pt. 350.; qt. 550.

# Jung's Garden Leaders

The five excel-lent vegetables offered below are of varieties we highly recommend. You should have them in your garden.

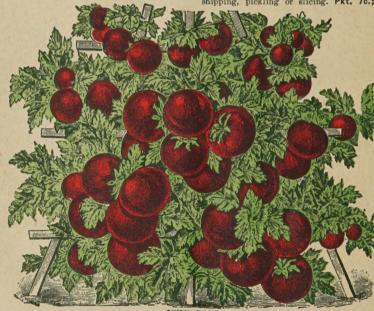

JUNG'S ALL CREAM

### Jung's All Cream Lettuce

This remarkable Lettuce does not head but makes a large loose bunch of leaves of superlative fine quality. The leaves grow upright, the upper part of the outer turning outward very gracefully and are handsomely wrinkled. The inside leaves are almost white and wonderfully crisp and tender. It grows quickly, is ready for use early and remains for weeks. It is the cream of all sorts and should be grown in every garden. Pkt. 8c.; oz. 20c.; 1/4 lb. 50c.

#### Straight Eight Cucumber

Unexcelled for Shipping, Slicing or Pickling. This fine new cucumber received the All American Gold Medal as one of the most outstanding vegetables of the year. It is one of the finest shipping cucumbers as the fruits are deep green, free from objectionable light striping and is very productive. The cucumbers run very uniform in size, usually about 8 in. long, 1½ in, in diameter, well rounded but not tapered ends. A fine cucumber for either the home or market garden as it yields heavily and can be used for shipping, pickling or slicing. Pkt. 70.; 02. 150.; ¼ lb. 40c.

## Jung's Select "John Baer" Tomato

John Baer Tomato has always been a popular favorite with our customers ranking as one of our best main-crop varieties. Much selection has been done to improve its good qualities, especially for earliness and yield. Fruits are large in size, globe shaped, deep red color, very smooth and solid. Select Seed of our own growing: Pkt. 8c.;  $\frac{1}{2}$  oz. 25c.; oz. 40c.;  $\frac{1}{4}$  lb. \$1.25.

## Giant Podded Peas "Lord Leicester"

This is one of the largest podded varieties in cultivation and also a sure cropper. We have grown it for six years and it has never failed to produce a good crop. It is of very vigorous and robust constitution which enables it to withstand drought and mildew. The pods are produced in profusion mostly in pairs, some measuring 4 to 5 inches in length and contain 8 to 10 peas. You will be delighted to show your friends such enormous pods which in addition to large size, combine rich and succulent flavor not surpassed by any other variety. For quality it is superb, the peas fairly melt in your mouth. Pkt. 8c.; ½ pt. 20c.; pt. 35c.; qt. 60c.

## Special Offer No. 28

One liberal pkt. of each of the fine Vegetables on this page for only 30c.

STRAIGHT-EIGHT

# 10c Cash Coupon

Your name does not appear on our records as a regular customer for Jung's Seeds and Plants, We are sure that after once planting them you will plant them in preference to others.

Therefore, as a special inducement to have your order this year this coupon will be accepted the same as 10c cash on any order amounting to 50c or more.

J. W. JUNG SEED CO.

Void after May 15, 1941

Few people realize that just as much progress has been made in improving flowers as has taken place in the building of Streamline Trains, Automobiles and Aeroplanes.

These old favorites like Asters, Bachelor Button, Calendulas, Larkspur, Marigolds, Nasturtiums, Pinks, Stocks, Zinnias and many others have been so greatly improved in all ways that you would hardly recognize them for the same flowers if they were placed side by side with the flowers our grandmothers prized so highly.

In order that you may enjoy the beauty of these beautiful new flowers at very little cost we have made up a well balanced mixture of all the above besides many more, over 20 varieties, and put the seed up in liberal sized packages.

A package of this seed will sow a row 50 ft. long and will make a bright spot in your garden all summer besides supplying flowers for your table from July until frost.

Large pkt. 12c.; 2 pkts. 20c.

## Jung's Seed Bargain Page

On this page we are offering you a selection of Garden and Flower Seeds which we have produced in large quantities so that we can offer you a real bargain. These are all the same high quality seeds as we always sell, the packets are regular full size and are liberally filled. If you are not satisfied when they arrive they may be returned and your money will be refunded

"The Products of Jung's Seeds are Unexcelled"

Jung's Seeds and Plants are well and favorably known to planters in all parts of the U. S.

For over 30 years we have been growing and selling seeds and plants and the fact that gardeners in increasing numbers are planting them year after year is the best evidence that they are giving satisfaction.

You can safely send your orders to us with the assurance that you will receive seeds and plants that will grow and produce crops that will delight and please you in every way.

Our many thousands of satisfied customers are our best advertisement and to them we extend our sincere thanks for their long and loyal patronage.

## **Price Changes**

Since this catalog was sent to the printers (Sept. 1940) many seed crops have been almost failured and it is necessary to make the following price advances:

Oz. 1/4 lb. lb. Page Pkt. 1.80 6.00 11-ONION, Giant Sweet Spanish .15 .60 11-CARROT, Red Cored Chant'y. .07 .18 14-CARROT, Coreless or Early Mkt .. 07 .60 14-ONION

Sel. Southport Yellow Globe .10 .40 1.45 5.10

## **Instructions on Ordering**

With each catalog we enclose an order sheet and self-addressed envelope. Be sure to write your name and address on order sheet. After writing down the list of articles wanted place same, together with remittance in the envelope. Remittance may be made by Money Order, Bank Draft or Check, amounts of 50c or less may be sent in clean postage stamps. You will be surprised how easy it is to make out your order and how soon the seeds will reach you after the order is sent in.

#### Please Use Order Sheet On Last Page

#### WE PREPAY DELIVERY CHARGES AS FOLLOWS:

Except where noted we pay the postage on all seeds of-fered by the packet, ounce, quarter-pound, pound, half-pint, pint, and quart; also on all bulbs and plants offered in quantities up to 1000. On plants in lots of 1,000 or more purchaser pays charges. On seeds offered on wholesale page, also farm seeds in quantities of over 3 pounds we do not pay charges.

#### WE GUARANTEE SAFE DELIVERY

If any parcel of seeds, plants or bulbs reaches you in bad condition advise us at once and we will refill the order free of charge or refund your money. Also if any goods you receive from us are not satisfactory in every way they may be returned and your money will be refunded.

#### ORDERS ARE FILLED PROMPTLY

We usually fill orders the day they are received. This applies to orders for seeds that can be sent at any time during the winter. If the order includes potatoes, onion sets, plants, etc., which cannot be safely sent in cold weather, we are obligated to hold the order until it is safe to ship.

#### OUR RESPONSIBILITY

You are absolutely safe in sending your order to us. Any seeds that are not satisfactory upon arrival may be returned and your money will be promptly refunded.

We refer you to any commercial agency, the Dairyman's State Bank or the postmaster at Randolph, Wisconsin.

#### DISCLAIMER

The J. W. Jung Seed Co. gives no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds, bulbs or plants it sells and will not be responsible for the crop.

C. O. D. ORDERS

We do not advise shipping orders C. O. D., as there is an extra charge of 15c on each order. However, if wanted we will ship orders C. O. D. if 25 per cent of the amount is enclosed when goods are ordered.

## Premiums on Pages 16 and 49

## Dickinson's Humus Inoculation

Will Increase Your Crops of Beans, Peas and Sweet Peas

This is a compound which when applied to the seed be ore promotes growth, hastens mahealthier turity, increases the

turity, increases the crop, improves the quality and also enriches the soil. It is for legume plants such as Beans, Garden Peas and Sweet Peas. In the case of Sweet Peas larger and finer flowers will be had and in Garden Peas and Beans your crop will be much heavier and of finer quality and you can pick more quality and you can pick more is easy to apply as it is put up in powder form and will stick to the seeds, no water is necessary and it can be used a little at a time. Garden size will treat up to 15 lbs. of seed. Each 20c.; 3 for 50c. Bu. size for Beans or Peas 50c. Special pkt. for small gardens 10c.

# PLANT SPRAY

On our Seed Farms and Nursery we have tried out many different Plant Sprays and we find "HiTox" has given us

by far the best results, especially for cucumber bugs.

This spray is deadly to insects but absolutely harmless
to humans, birds and animals. Will not "burn" delicate leaves or tender flowers.

Easy to use as all that is necessary is to add water. Full instructions with each bottle or can.

"H:Tox" costs a little more than many other sprays but

## VITAMIN B

This preparation has received wide publicity due to the remarkable results it has produced. You will be amazed at the size and beauty of flowers which you can grow by using this new discovery which is now very reasonable in using this new discovery which is now very reasonable in price. Especially valuable for transplanting shrubs and plants as those treated will not wilt down but very little. Full directions on every box, Box of 48 Tablets (enough for 192 gall, solution) 25c.; 3 for 70c.

#### Errors or Mistakes

We are only human and will make errors, however, when a mistake does occur we are glad to have our customers write us so that it may be corrected. Always keep a copy of your order to check over the goods when you receive them; often people will write us that they ordered some items which they did not receive but upon looking up their orders we find that the items claimed to be short were not ordered.

# Jung's Wholesale Prices on Garden Seeds

As is the custom with most seedsmen we make special prices to market gardeners or those planters requiring seeds in large quantities. These seeds are of the highest quality being grown by us or growers who have made a specialty of producing high grade pedigreed seeds. Quality considered we believe you will find our prices very reasonable. Remember it costs more to produce good seeds but they are also worth more when the resulting crop is taken into consideration. Without good seed the

best land and cultivation cannot yield you a profitable crop.

Please Notice

At the prices quoted on this page we do not pay shipping charges, please state on your order whether we should ship by freight or express.

We cannot fill any orders at these prices unless it amounts to \$3.00 or more. All prices subject to change.

# **UNG QUALITY GARDEN SEEDS**

In the following pages you will find a complete but select list of both new and standard varieties of seeds, varieties which have been carefully tested and which we can fully recommend. All of these seeds are grown from carefully selected stocks and great care has been used to keep them pure; all have been carefully tested for germination. We make quality the first consideration for we know that without good seeds you cannot raise a good crop. Quality considered you will find our prices very reasonable.

#### Giant Washington Asparagus

This new Asparagus has taken the country by storm as it is rust-proof and produces bigger stalks and larger crops than any other variety. This variety is the result of many years work by the U. S. Dept. of Agriculture and fortunate indeed is the gardener who will get started with it as it will surely displace all other varieties. The stalks grow to a very large size yet they remain so crisp and tender they may be eaten raw. Pkt. 8c.; oz. 15c.; ½ lb. 40c.; lb. \$1.25.

For prices on Asparagus Roots see page 49.

WASHINGTON ASPARAGUS

## Jung's Northern Grown Bush Beans

GIANT STRINGLESS GREEN POD

SURECROP WAX Surecrop Wax

A splendid early wax bean that will give you quality and quantity. Resistant to blight and rust, excep-

tionally hardy and produces remarkable crops. Pods are bright yellow, 6 to 7 in. long, thick, fleshy and free from strings. The quality and yield of this fine wax or butter bean are from strings. The quality and yield of this fine wax or butter bean are "tops". Large pkt. 7c.; ½ pt. 18c.; pt. 30c.; qt. 50c.

Top Notch Golden Wax

A great improvement on the old Golden Wax as it produces pods that are larger and also of better quality. It is one of the earliest varieties. Bushes grow 12 to 15 in tall, very robust and free from disease; a sure cropper even under unfavorable conditions. Pods 4½ to 5 in. long, one-half inch broad, very fleshy, tender and stringless. It combines earliness, hardiness and productiveness. Pkt. 6c.; ½ pt. 17c.; pt. 28c.; qt. 50c.

great improvement on the old

### Giant Stringless Green Pod

Here is an absolutely stringless, giant podded bush bean. It combines extreme earliness, unusual hardiness and great productiveness. The handsome pods are 6 to 7 inches long, very brittle and stringless even when fully matured, deep green in color and of the finest quality. One of the best varieties for either market or the home garden. Pkt. 8c.; ½ pt. 18c.; pt. 30c.; garden. qt. 50c.

#### Giant Tendergreen

Immense Yielder. Giant Tender Pods Absolutely Stringless

A new green podded bush bean, very pro-A new green podded bush bean, very productive, absolutely stringless and bears heavy crops of the long handsome pods that are more tender and brittle than any other variety. The pods are 5 to 6 in. long. round and thick, very meaty, free from strings and of finest flavor. Bushes are unusually strong and vigorous; this variety easily ranks as the most desirable green podded bush bean. Pkt. 8c.; ½ pt. 20c.; pt. 35c.; qt. 55c.

The Seed Beans we offer are practically all of our own growing. They were produced from select stock seed, were thoroughly rogued and hand picked. You will find that our Northern Grown Beans will be ready to use earlier and also bear heavier crops of pods than the ordinary commercial stocks.

GIANT TENDERGREEN

#### Brittle Wax

The Earliest of ALL BUSH BEANS. Of such excellent quality that it might be termed "best of all"

The plants are very hardy and vigorous, of true bush growth, about fifteen inches high and heavily laden with the long, straight, round and very solid pods, from five to seven inches long. The pods are of a rich, golden color, very tender and entirely free from strings at all stages of its growth. It will stand longer than any other hean It will stand longer than any other bean without becoming hard. Pkt. 8c.; ½ pt. 25c.; pt. 35c.; qt. 55c.

Mrs. A. S. McIntire, Ohio.—I was well pleased with the seeds, shrubs and berry bushes that I got from you last year. My beans were wonderful. I used inoculation

TOP NOTCH GOLDEN WAX

BRITTLE WAX

FAIRFIELD WONDER WAX

BEST OF ALL

#### WAX BUSH BEANS-Continued

Jung's Fairfield Wonder Wax Without a Doubt the Finest Wax or Butter Bean Ever Introduced. It is with pleasure that we offer our customers this grand new Butter Bean, as we are sure it will please the most critical planters. This variety originated on our Fairfield Farm and is by far the finest wax bush bean we have ever seen. The bushes are unusually vigorous and free from disease. They grow from 15 to 20 inches high, have large foliage and bear an immense load of pods, which are from 6 to 9 inches long, one-half inch broad and have absolutely no strings whatever. The color is a rich lemon yellow. If you want the very best Butter Bean of them all try Jung's Fairfield Wonder Wax. Pkt. 8c.; ½ pt. 20c.; pt. 35c.; qt. 55o.

Best of All Golden Wax

One of the heaviest yielding wax Bush Beans, also one of the surest croppers. Many times when other varieties were a failure Best of All yielded a heavy crop. It is a very early variety, having withstood frosts which seriously checked other varieties. The bushes are literally covered with fine transparent yellow pods which are from 4 to 5 inches long, remarkably tender and brittle and it has no strings whatever. Plant it once and you will want it every year. Pkt. 70.; 1/2 pt. 180.; pt. 30c.; qt. 50c.

Pencil Pod Wax We consider this one of the best Wax Beans yet introduced. It is very productive and of most excellent flavor. The pods are long, straight and round like a pencil, fleshy and of a bright yellow color; tender, brittle and absolutely stringless. The plants are of true bush growth, 15 in. high with abundant foliage, The magnificent pods are from 5 to 7 in. long. Pkt. 70.; 1/2 pt. 18c.; pt. 30c; qt. 50c.

PENCIL POD WAX

It will pay you to Inoculate your Beans.
See Page 1.

HENDERSON'S BUSH LIMA

## Special Offer No. 1

You can assure yourself a con-tinuous supply of crisp and ten-der beans by planting the following:

Giant Stringless Green Pod Imp. Kentucky Wonder Fairfield Wonder Wax Refugee Butter Wax

1 Pkt. of each for 25c. 1/2 Pt. of each for 75c.

1 Pint of each for \$1.20.

1 Qt. of each for \$2.10.

Mrs. Rutherford Stevens, N. Y.—Had grand luck with your seeds last year. The Sure Crop Wax Beans were a "sure crop".

Glen C. Cunningham, Wash.— We're sold on Jung's Seeds for the best garden we ever had.

WONDER BUSH LIMA

FORDHOOK BUSH LIMA

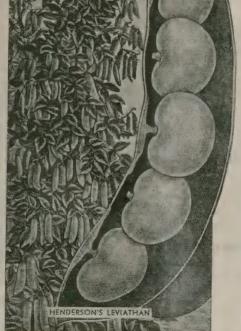

### **Dwarf or Bush Lima Beans**

Henderson's Bush Lima The earliest of all Lima Beans, by plant-States can enjoy Limas from their own gardens. It is at least two weeks earlier than any of the climbing Limas and can be had ready for use by July 20, from then until frost; they will yield enormous crops of pods. Bushes grow about 18 inches high and require no stakes; so productive that a small patch will keep a family supplied throughout the season. Pkt. 80.; 1/2 pt. 180.; pt. 300.; qt. 500.

Wonder Bush Lima A great improvement on Burpee's Bush Lima it is earlier and more productive; the pods are borne much to the center of the plant. This is a great advantage as the pods are held up from the ground. The bushes grow 18 to 24 inches tall and require no stakes or poles. Pods are truly mammoth in size and are borne in clusters of from 5 to 8 pods and contain from 4 to 6 of the large luscious beans. There is nothing quite so delicious in the vegetable line as nice fresh Lima Beans. Pkt. 8c.; ½ pt. 18c.; pt. 30c.; qt. 55c.

Fordhook Bush Lima Fordhook is the big. almost round, seeded bush lima that bears its pods in clusters of four to six. Each pod contains from three to five large plump beans that are so tightly packed that the ends of the beans are flattened. Of true bush type, the plants grow 16 to 20 in. tall, are well supplied with foliage, the pods are abundantly produced. The most popular of all Bush Limas, both for the family and market gardens. Pkt. 80. 1/2 pt. 200.; pt. 300.; qt. 55.

IMP. KEN. WONDER

## **POLE BEANS**

### KentuckyWonder Wax

The merits of the old Kentucky Wonder Pole Bean are well known. This variety has all its superb qualities with the addition of a beautiful transparent yellow pod. It is a rampant grower, one plant filling a pole with vines densely loaded with a solid mass of pods, being from 6 to 8 inches in length, exceedingly tender and very fleshy. The pods are so plump and fleshy that frequently they are of greater thickness than width. Deliciously rich and buttery when cooked. Pkt. 8c.; ½ pt. 25c.; pt. 35c.; qt. 60c.

## Henderson Early Leviathan Lima

This is the very earliest. It will not only give pods earlier than any other strain but it is also much more productive, both early and throughout the season. It is strong grower, clinging well to the poles and is a sure cropper. The pods hang out from the foliage in large clusters and contain 3 to 5 large beans to a pod. It bears until frost. Pkt. 7c.; 1/2 pt. 25c.; pt. 35c.; qt. 60c.

### Early Ideal

A new pole bean that will please you in every way. Fully week earlier than the Old Homestead and one of the heaviest yielders. Pods are 5 to 1 in. long, round, slightly curved, stringless when young and are borne

in clusters of 5 to 6 pods; very tender, meaty and of excellent quality. You will be delighted with the earliness, quality and productiveness of this fine pole bean. Pkt. 8c.; /2 pt. 25c.; pt. 35c.; qt. 60c.

One of the earliest and best green-podded pole beans. Its wide popularity is well deserved as it is enormously productive, the pods hanging in great clusters from top to bottom of poles. Pods are 9 to 10 inches long, entirely stringless and cook up rich and buttery. A very sure cropper and may be planted with corn. Pkt. 7c.; ½ pt. 20c.; pt 30c.; qt. 55c.

SNOWFLAKE FIELD BEANS

## Snowflake or 1200 to 1 Field Beans

Ripens Early. Immense Yielder. Handsome Appearance. Ripens Early. Immense Yielder. Handsome Appearance. Unequalled for Soups or Baking. We again sent out many hundreds of packets of this wonderful bean the past season and are delighted to hear of the excellent results our customers are having with it. This is decidedly one of the best Pea Beans to grow either for market or home use both on account of its great yield and handsome appearance. Its cooking and baking qualities are unsurpassed. Vines are very healthy, dwarf or bushy in growth and bear an immense number of pods which are well filled with the pearly white beans. Get at least a pint of these wonderful beans and grow enough for your winter use. Pkt. 7c.; ½ pt. 17c.; pt. 25c.; qt. 45c.

## Borecole or Kale

DWARF CURLED-Useful for furnishing greens for bodding during the early fall, winter and spring months. The leaves are very curly, bright green, tender and delicate in flavor. The plants are hardy and the quality is improved by freezing. Pkt. 5c.; oz. 15o.

## **Brussels Sprouts**

LONG ISLAND IMPROVED - The Sprouts LONG ISLAND IMPROVED — The Sprouts resemble miniature cabbages growing closely on the stalk of the plant. They are more tender and delicious than any cabbage. Hard frosts do not injure them and they are left in the garden until desired for cooking. Strip off the outer covering of the Sprouts and cook them whole. They are a delicacy not surpassed by the finest cauliflower. Pkt. 7c.; ½ 02. 12c.; 02. 20c.

BRUSSELS SPROUTS

#### ENDIVE Green Curled

Mostly sown in June or July for fall use; plant in rows about one foot apart, thin out to 8 inches apart and when well along bunch by tying the tops together. Green Curled is a hardy variety, the most desirable for home use or market garden. Deep green leaves beautifully cut and curled; easily blanched and becomes crisp, tender and very fine flavored. Pkt. 5c.; oz. 10c.; 1/4 lb. 35c.

#### BROCCOLI Italian Green Sprouting

One of the newer vegetables that is rapidly gaining in popularity as its excellent qualities are becoming known. grown the same as cabbage or cauliflower and is ready for use in 90 days after sowing. The head is a compact cluster of tightly closed flow-The head is a er buds somewhat like a cauliflower in shape only. When the main head is cut numerous sprouts develop along the main stalk which later form into smaller heads thus producing throughout the season. The heads should be cut before the flowers open and may be cooked like cauliflower or asparagus. The heads should have 3 to 5 where the flowers of the beads should have 3 to 5 where the flowers of the beads should have 3 to 5 where the flowers of the beads should have 3 to 5 where the flowers of the beads should have 3 to 5 where the flowers of the beads should have 3 to 5 where the flowers of the beads should have 3 to 5 where the flowers of the beads should have 3 to 5 where the flowers of the beads should have 3 to 5 where the flowers of the beads should have 3 to 5 where the flowers of the beads should have 3 to 5 where the flowers of the beads should have 3 to 5 where the flowers of the beads should have 3 to 5 where the flowers of th inches of the branch or stem attached as this is fully as good as the head itself. Pkt. 8c.; ½ 20. 20c.; oz. 35c.

#### **SWISS CHARD** Lucullus

Plants grow two feet high and consist when fully developed of about dozen creamy white, attractive curled leaves. The leaves are carried on broad thick stalks about 12 inches long. The leaves may be cooked in the same manner as Spi Spinach. Pkt. 5c; oz. 12c;

#### **CRESS-Fine Curled**

An annual, making a good salad. Leaves are finely cut and feathery like a good parsley. It is dwarf and compact in growth. Very ornamental, of quick growth, crisp and refreshing. Pkt. 5c.; oz. 10c.

### Celery Cabbage

Until recently this new vegetable was unknown but as its good quality became known it is rapidly gaining popular favor. For best results the seed popular favor. For best results the seed should be sown the latter part of July in rows 2 feet apart and thinned to stand 15 inches apart in the rows, then a most excellent vegetable can be grown. Develops quickly and as the weather gets colder it heads up nicely producing crisp, celery-like stalks, beautifully blanched. It can be eaten raw, made into salads or cooked cabbage or greens. Pkt. 80.; ½ 02. 120.; 02. 200.

## Jung's Select Cabbage Seed

The cabbage seed we are offering was grown from selected stock and the heads were all carefully inspected before being set out. Our packets of Cabbage each contain enough seed to produce 500 plants.

## Extra Early Golden Acre

A wonderfully fine, extra early, round headed cabbage being ready for cutting ahead of Jersey Wakefield. The heads are of good size, very round, solid and everyone just alike. Plants grow very compact and may be set close together. Plant this cabbage for market and it will prove to be your "golden acre" as your crop will be ready to cut while prices are high. We offer an extra select stock of this finest extra early cabbage. Pkt. 7c.; 1/2 oz. 12c.; oz. 20c.

#### Surehead

Sureness in heading and regularity m growth have placed this at the top of the list, and we have no fear in using words of praise too high for its merits. It forms large, hard, solid flattened heads, uniform in shape and color and of handsome appearance. It has a very short stem and is a compact grower It is as natural for this cabbage to form a head as to form leaves and reports of 99 marketable heads from 100 plants are of frequent occurrence. No-body will be disappointed in our strain, Pkt. 5c.; ½ oz. 12c.; oz. 20c.

### Extra Early Express

POSITIVELY THE EARLIEST CABBAGE

There are few loose leaves and it forms a head of good size and fine quality. It can be planted close; always yields a large crop. A fine variety for shipping as the heads remain solid for a long time. It is a beautiful appearing cabbage, being of fine color and general uniformity. Also called "Lightning" and other fancy names by some seedsmen. Pkt. 8c.; ½ oz. 15c.; oz. 25c. There are few loose leaves and it forms

#### Jung's Select Early Jersey Wakefield

the standard pointed-headed Cabbage throughout the United States. The heads are uniformly hard and solid and are pyramidical in form. generally pointed at the end with few outside leaves. Having but few outside leaves it may be planted close so that more heads can be grown to the acre than with other sorts. It is exceedingly tender, fine grained and a cropper no early cabbage can approach it. Size is ideal for marketing. Pkt. 50.; 1/2 oz. 120.; oz. 20c. ideal for

SELECT FLAT DUTCH

#### Select Flat Dutch

It makes a large round, firm head, uniform in shape and color which seldom rots or bursts. Sureness in heading and regularity in growth has made this one of the most popular standard sorts for winter keeping. The quality, either for slicing or kraut or for general table use is superb. It is a very fine strain of late cabbage and can be profitably grown anywhere in this country; it is a splendid sort for giving unbounded satisfaction. Pkt. 70.; 1/2 0z. 12c.;

### Allhead Early

This is the earliest of all large cabbage and considerably larger than any other early summer cabbage. The deep other early summer cabbage. The deep flat heads are remarkably solid and the most uniform in color, shape and size of any variety. Good quality and ten-derness are marked features. It is suitable for growth in spring and early sumable for growth in spring and early summer or for use as a winter sort. The heads grow so compact that fully one thousand more than is usual with large cabbage can be grown to the acre. Pkt. 5c.; ½ oz. 12c.; oz. 25c.

Protect your Cabbage from worms, bugs and plant lice by using "Hitox." See page 1.

### Perfection Savoy

This is the hardest heading and best all-round SAVOY. Plants are of strong growth, having only a moderate amount of outer foliage growing closely around the solid heads. It is very sweet and crisp and always tender. The heads are beautifully blanched and of the finest flavor. Pkt 5c. ½ 02. 12c.; 02. 20c.

Ray Hill, Minn,-Cabhage seed from you did fine, raised tons of cabbages and sold plants also.

#### Red Drumhead

This is the well known Standard Cabbage. Heads are of large size, slightly rounded and from seven to eight inches in diameter. A valuable variety for pickling; very sweet, tender and of excellent quality. Pkt. 5c.; ½ oz. 12c.; oz. 20c.

RED DRUMHEAD

#### Jung's Select Danish Ballhead or Hollander

A Grand Hard Headed Cabbage
This type of winter cabbage has become very popular of late
years on account of its UNEQUALED KEEPING QUALITIES
well as for the great SOLIDITY and WEIGHT of the heads. It is
strong and vigorous in growth and produces large, round compact heads, exceedingly hard and solid, weighing when trimmed
fully one-fourth more than any other cabbage of equal size. For
boiling, slaw, sauer kraut, etc., it is unequaled being crisp,
tender and sweet. It seems to grow well withstanding hot, dry
weather and does not rot from the effects of wet seasons. Pkt8c.; 1/2 oz. 15c.; oz. 25c.

## Disease Resistant Cabbage

The select strains of cabbage offered below are especially suited for sections infested with cabbage "yellows" where the regular strains will rot. You will find these varieties of superior quality.

#### Jersey Queen

A select strain of Jersey Wakefield that is resistant to "yellows". You will find this to be the best "resistant" pointed variety. Pkt. 100.; 1/2 oz. 180.; oz. 30o.

#### Marion Market

One of the most popular and widely grown "yellows" resistant, early, round headed cabbage. May be classed as a very select Copenhagen Market as it is early and sure to produce large, round, solid heads. Pkt. 8c.; 1/2 oz. 18c. oz. 30c.

#### Resistant Golden Acre

An extra fine extra early Cabbage that has all the good qualities of Golden Acre and in addition is resistant to "yellows" and for this reason can be successfully grown in sections reason can be successfully grown in sections where this disease will destroy other varieties. Plants grow very compact and can be set close together. The heads grow to good size, are round, very solid and uniform in size and shape. Extra Select Seed: Pkt. 80.; ½ oz. 150.; oz.

## Special Offer No. 2

For a good supply of fine cabbage plant the following varieties:

Early Jersey Wakefield

Surehead Allhead Early

Danish Ballhead

1 Pkt. of each for 20c.

1/2 oz. of each for 45c.

RESISTANT GOLDEN ACRE

This variety has proved to be very resistant to the cabbage disease known as "yellows" which destroys the crop in many sections. A splendid variety for shipping as heads are solid as a rock, also an unusually good keeper. If you grow cabbage for shipping or want something that will keep through the winter, plant this variety. Pkt. 8c.; ½ oz. 15c.; oz. 25c.

Resistant Ballhead

DISEASE RESISTANT BALLHEAD

EARLY WONDER

## CARROTS

Jung's First of All

A remarkable handsome Carrot that is ready for use before any other variety. Roots grow 3 to 4 inches long and present a fine appearance when bunched for market. Flesh is deep orange colored, tender and sweet, fine grained and never coarse and woody. Does well in almost any kind of soil. Pkt. 7c.; oz. 20c.; 1/4 lb. 50c.

#### Coreless or Early Market

A handsome half-long cylindrical stump-rooted carrot of good size and of a rich orange color. It grows to a large size, is smooth and the flesh is very close in texture with little core and a small taproot. It is a good carrot for all soils and under good cultivation it has yielded 20 to 25 tons per acre. It is very easily harvested. Pkt. 70.; oz. 18c.; /4 lb. 60c.

Mrs. H. Olson, Ind. — Was well pleased with seed from you; we liked the Coreless Carrot very much.

#### Large White Belgian

This is the largest yielding stock carrot grown. Nearly half its length grows above the ground, making them very easy to harvest. Carrots are often 18 inches long and 4 to 5 inches in diameter. Yields of 15 tons per acre are nothing unusual. Excellent for either cows or horses. Pkt. 50.; oz. 12c.; 1/4 lb. 35c.

### Klein Wanzleben Sugar Beel

This Beet is the result of years of methodical and persevering selection. It gives better results than any other variety. It is tremely rich in sugar, thousands of analysis showing that the average percentage of sugar obtained from this variety is about eighteen and its average yield may be stated to be 15 to 16 tons per acre but crops of 25 to 40 tons per acre have been obtained off it. Flesh finely grained and very sweet. Pkt. 5c.; oz. 8c.; ½ 1b. 20c.; lb. 75c.

## Premiums

WANZLEBEN

GOLDEN TANKARD

#### BEET

#### Early Wonder

This splendid variety is extremely early, of perfect globe shape and of finest quality. It is a fine selection of blood red beet, extremely smooth and of symmetrical growth fine rich color and desirable shape. In quality and color it is peerless, very fine grained tender and sweet, never woody or stringy. The tops are small, making it a good forcing variety. Pkt. 7c.; oz. 12c.; 1/4 lb. 35c.

Handit long Re

## MANGELS

Golden Tankard A smooth yellow-fleshed Mangel; quickly to the bottom which is quite broad with only a small taproot. It yields an enormous crop on good soil and can be closely grown in rows. No root crop is a better paying investment for farmers to grow than Mangels.

Oz. 8c.; 1/4 lb. 25c.; lb. 90c.

Mammoth Long Red
The mangel is enormously, wonder fully productive. The fiesh is red, of very fine texture and quality, containing less water and more sugar than any other Mangel, except it be the Half Long Sugar making it the most nutritious and milk producing. Sheep and other stock thrive better when fed on it picking out pieces of it in preference to all others. Oz. 8c.; 2 oz. 15c.; 1/4 lb. 25c.; lb. 95c.

#### Dry Weather

Especially adapted to resist Reaches perfection when ordinary sorts fail. Reaches perfection when ordinary sorts fail. Plants are of vigorous growth, producing heads of snowy whiteness and fine quality. It has heavy foliage and is not liable to rot in hot weather. It is in all respects a first class cauliflower but is particularly adapted to dry situations and to resisting the effect of drought; also does well in wet or moist situations, producing heads equal to the best. Pkt. 15c.; 1/4 oz. \$1.25; 1/2 oz. \$2.00; oz. \$3.90.

## CELERY

Golden Plume

This is a fine new celery that we can recommend without reserve. It is fully a week earlier than Golden Self Blanching, is week earlier than Golden Self Blanching, is similar in color and flavor but is superior to it as this variety blanches more easily, is more blight-resistant. It has been especially selected for large, solid hearts. Specimen stalks have been grown 2 ft. tall and 4¼ in. thick. Has been blanched in the remarkably short period of 5 days. Select Seed: Pkt. 8c.; ½ oz. 20c.; oz. 35c.; /4 lb. \$1.25.

WHITE PLUME

# Jung's Select Cauliflower

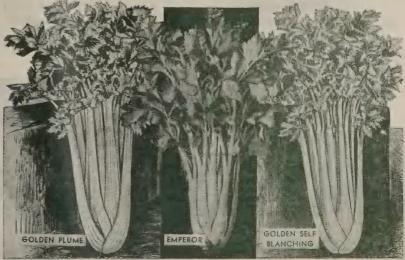

You will make no mistake in planting Jung's Cauliflower seed. No matter what price you pay you cannot buy better seed. A trial will con-vince you of its superior quality.

#### Pedigree Early Snowball

For earliness and reliability to produce a head of good size and rich white curly appearance it is unexcelled.

It forms snow white heads, six to ten inches in diameter, of good quality. The heads are so solid, compact and deep they will outweigh those of any other strain. There is a great difference in the strain of this variety but our stock is the very best. Pkt. 15c.; /4 oz. \$1.35; //2 oz. \$2.25; oz. \$4.25.

Golden Self Blanching The best of all self-blanching varieties. ery grown. The ribs are perfectly solid, crisp, brittle and of a delicious flavor which is not surpassed by any other variety while it has the decided merit of being self-blanching to a remarkable degree. It is extensively grown for market and private use, not only on account of its easy culture but for its superior quality. The hearts are large and hard and blanched to a beautiful golden yellow. When grown in moist soil the stalks an numerous and large in size. Pkt. 80.; 1/2 02. 25c.; 02. 45c.

Emperor

An excellent celery for fall and winter use, of true dwarf growth, having wery large heart, solid and of finest nut flavor.

Being of dwarf growth, 15 to 18 inches tall. it is much easier to blanch than the taller varieties. The stalks are smooth, very thick, round and crisp, blanching to a light golden color. An especially good keeper.Pkt. 8c.; ½ oz. 12c.; oz. 25c.; ¼ lb. 90c.

White Plume

This is the earliest and most easily blanched celery. The plants grow rapidly and blanch easily during the summer months. Later in the fall the central stalks and leaves are of pure snowy whiteness even without earthing up; but stalks should be gathered together and earthed up as in the other varieties so as to produce close, attractive bunches. As for succulence, crispness and quality the White Plume is unequalled. Pkt. 5c.; ½ 02. 15c.; 02. 25c.

## Black Beauty Egg Plant

The earliest and best of all large fruited Egg Plants. It is an extra early variety with fruits of a beautiful jet color. The fruits set freely and develop quickly jet color. The fruits set freely and develop quickly me that the crop can be gathered before there is any danger from frost. It is of dwarf growth and bears its fruits which weigh from one to three pounds each, close to the stem. The calyx is entirely free from spines and thorns. The intensely brilliant coloring is uniform over the whole fruit. The plants usually bear eight to ten immense fruits before being killed by frost. Pkt. 8c.; ½ 22. 25g.; 22. 40c.

### Turnip Celery

This is an excellent vegetable, It produces large, turnip-shaped roots which keep well for winter use. Highly esteemed either cooked in the same manner as other vegetables, for flavoring soups, or sliced and used a salad. Pkt. 50.; ½ oz. 120.; oz. 20c.

Eva Schrock, Ohio. - When I waint good seed I think of Jung's.

EGG PLANT

HYBRID BABY RICE

### POP CORN Hybrid Baby Rice

If you want the best Pop Corn plant this new Hybrid. It surpasses all others in yield, quality and popping expansion. A quart of this corn will make 300 qts. after it is popped and for flavor, tenderness and freedom of unpopped kernels it is unexcelled. Nothing better to be had. Large pkt. 10c.; ½ pt. 25c.; pt. 35c.; qt. 65c.

#### Bantam Ries

The Bantam Rice is a dwarf growing corn, a heavy yielder of attractive ears, which are very thick and yield an unusually large quantity of shelled corn. The kernels are similar to the best strain of White Rice only they are longer and slimmer and pearly white in color. Its greatest merit, however, lies in its popping qualities, there being hardly any hull or shell when popped. It is most tender and delicious as it fairly melts in your mouth. It combines both quality and quantity being a heavy yielder and superior in quality. Pkt. 7c.; ½ pt. 18c.; pt. 30c.; qt. 50c.

#### Vine Feach

Grows on a vine the same as melon. The fruits has the size, shape and color of an orange. The flesh is snow white and makes excellent preserves or sweet pickles; may also be sliced and fried like egg plant. Vines are quite hardy and productive. Fruit will keep a long time after picking. Pkt. 5c.; 3 pkts. 10c.

CITRON

#### CITRON Colorado Preserving

A large fruited variety producing the handsome fruits in abundance. The flesh is white, very solid and is used for pickles and preserves. Pkt. 5c.; oz. 10c.; 1/4 lb. 25c.

BANTAM RICE

#### HERBS

ANISE—Used for cordials, garnishing and flavoring. The seeds have an aromatic taste. Pkt. 5c.

DILL—This herb is used in large quantities in the making of Dill Pickles; also for flavoring vinegar. Pkt. 5c.; oz. 20c.

SAGE—Sow in rich ground and thin out the plants to 15 inches apart. Used for flavorings and dressings. Pkt. 5c.

SWEET MARJORAM- The leaves and end shoots are esteemed for seasoning in summer and also dried for winter use. Pkt. 5c.

SUMMER SAVORY.—The loaves and flowers are used extensively for flavoring, particularly in soups and dressings. Pkt. 50.

THYME—The leaves are used for seasoning. Pkt. 5c.

### KOHL RABI

EARLY PURPLE VIENNA—This vegetable is grown for its turnip-shaped bulb which is grown above the ground. Excellent for soups or cooked in the same manner as turnips. Grows to a large size and of juicy quality. Very early and of fine shape and delicate flavor. Pkt. 5c.; 1/2 oz. 12c.; oz. 20c.

WHITE VIENNA—This variety is very early with distinct small tops. The bulbs are of medium size and very light green or almost white in color and are of the finest quality if used when about two inches in diameter. Pkt. Sc.; 1/2 oz.

## PEANUTS Early Virginia

This splendid variety is very desirable because so early and prolific. It grows perfectly erect and seed planted early in May will ripen a crop in September and for this reason can be grown in the north. Let the boys and girls try them, it will give then lots of fun and provide peanuts for the winter. Full culture instructions on every package. girls try them, it will give them

GROUND CHERRY

## **True Yellow Ground Cherry**

These plants are low and spreading and produce their luscious fruits in great abundance. Excellent for pies and makes delicious preserves as the fruit has a strawberry flavor. Of easy culture and will succeed in most any garden. Pkt. 5c.; 3 pkts. 10c.

#### GOURDS Fancy Mixed

An interesting and valuable vine, grows very rapidly and quickly covers old walls, fences or outbuildings and trellises. They bear an abundance of the curious shaped fruits and we have included a very choice selection in the seed we offer. Pkt. 7c.; 2 pkts. 10c.; ½ oz. 15c.

FANCY GOURDS

## VEGETABLES OF SPECIAL MERIT

#### Jung's Select Detroit Dark Red Beet

This Beet is regarded as the standard of excellence and you will find Jung's Select Strain to be as fine a Beet as it possible to grow. JUNG'S WAYAHEAD

### **Giant Sweet Spanish Onion**

Giant in Size. Heavy Yielder. Sweet Mild Flavor. Why buy the large sweet onions at fruit stores when you can grow em in your own garden? This new variety was developed especially them in your own garden? This new variety was developed especially for this country and anyone having reasonably good garden soil can grow these fine large onions; seeds sown early in the spring will produce magnificent large globe shaped onions often weighing a pound or more. It is globe shaped, has a beautiful straw colored skin; flesh pure white, tender and of mild sweet flavor. A good keeper for such a large onion. We offer our special select strain of seed which was grown from only carefully selected bulbs. Pkt. 10c.; oz. 30c.; 1/4 lb. \$1.10; lb. \$4.25.

One of the most popular and widely grown cabbages for fall and winter markets. Heads are round, very solid and remarkably solid and will keep all winter. This type of cabbage always commands top prices. Our strain of seed is the true short stemmed stock and for sureness in heading and uniformity of type is unexcelled. Pkt. 8c.; ½ oz. 12c.; oz. 20c.; ¼ lb. 75c.; lb. \$2.50.

Do not overlook the Fine Premiums for Jung customers on Pages 16 and 49.

JUNG'S SELECT DANVERS

### Jung's Select Danvers Carrot

A magnificent carrot for general culture; indeed A magnificent carrot for general culture; indeed by many considered the best of all. It is very thick through, about 5 inches long, stump rooted, often attaining a weight of 5 pounds. Flesh is a rich orange in color, very tender and sweet. We recommend this variety for both home and market gardens; especially for hard or stiff soils where longer varieties will not thrive. Pkt. 7c.; oz. 15c.; 1/4 lb. 40c.

Mrs. Oscar C. Anderson, Minn.—Thank you for your excellent service and splendid seeds we have eceived before.

Mrs. Hochstetler, Ind .- Well pleased with everything I raised from your seeds, I had the first and nicest Cabbage of any in the neighborhood.

#### **BUSH BEAN** Best of All Wax

A splendid early wax bean that will give you quality and quantity. Resistant to blight and rust, exceptionally hardy and produces remarkable crops. Pods are bright yellow, 6 to 7 in. long, thick, fleshy and free from strings. The quality and yield of this fine wax or butter bean are "tops". Large pkt. 7c.; ½ pt. 18c.; pt. 30c.; qt. 50c.

#### LETTUCE Early Surehead

A specially selected strain of lettuce that is ready to use early and sure to form heads. Outer leaves are medium green while the center or heart blanches a rich creamy yellow. By planting this variety you can grow head lettuce as easily as radishes. Sow the seed early and as soon as well started thin out plants to stand 4 to 5 in. apart in the rows. Pkt. 7c.; 1/2 oz. 12c.; oz. 20c.

T. F. Smith, N. Car.—I like your onions so well I cannot do without

Mrs. I. H. Diffendaffer, Colo .- ! have used your seed for a good many years and always find them dependable.

## TOMATO

#### Golden Dwarf Champion

The famous Golden Dwarf Champion The famous Golden Dwarf Champion owes its wide popularity to its stiff, vigorous, upright growth, smooth fruit and fine color. Plants are bushy and compact, with heavy dark green foliage. The tomatoes are always smooth, round and solid and of a beautiful lemon color. Nothing makes a more tempting dish than red and yellow tomatoes sliced together. This variety has an unusual flavor, especially fine for preserves as it does not require as much sugar as other varieties. Pkt. 7c.; ½ oz. 20c.; oz. 35c.

GOLDEN DWARF CHAMPION

BEST OF AU

WAY BUSH BEAN

SUMEHEAD DETRUCT

COLORADO CUCUMBER

#### New Colorado Cucumber

An excellent new cucumber which for dark green color, uniformity of size and handsome appearance should be placed at the head of the cucumber list. The vines are strong, rampant growers and bear bountifully. Fruits are 10 to 12 in, long, straight and symmetrical and retain their deep green color for a long time. Will prove to be a money maker for either the home or market grower. Pkt. 8c.; oz. 15c.; 1/4 lb. 40c.

#### Red Cored Chantenay Carrot

Fine Appearance. Ideal Quality. Heavy Yield.

very desirable Carrot in every way, it is a great improvement over the well known Chantenay, especially in color, texture and quality of flesh. They grow very smooth, 5½ to 6 in. long, 2¼ in. thick at the crown and being stump rooted they are easy to dig. Flesh is reddish orange colored, no light core, fine grained, sweet and tender and has a very delicate flavor. Its fine quality, beautiful appearance and heavy yield makes this one of the best carrots for either the home or market garden. Pkt. 5c.; oz. 12c.; ¼ lb. 30c.

## "Allheart" Cabbage Lettuce

A remarkably fine head lettuce for the home garden as it stands hot weather better than most other varieties. Plants make large firm heads almost as solid as cabbage, heads are light green outside while the inner portion is creamy yellow, very tender and of a delicious buttery flavor. Sow the seed early and thin out your plants to stand 6 to 8 in. apart in the rows. Pkt. 5c.; oz. 12c.; 1/4 lb. 35c.

#### Best of All Beet

Unexcelled for Home or Market Gardens. Deep Red Throughout. No Light Zones. A new Beet that will please the most critical planter. Ready to use in 50 to 55 days. Beets are deep red in color with no white rings or zones, globe shaped and very tender and sweet. A splendid variety for pickling, bunching or canning as they are always smooth and uniform. We consider this one of the finest Beets for either the home or market garden. Pkt. 8c.; oz. 15c.; 1/4 lb. 35c.; lb. \$1.25.

## "QUALITY FIRST"

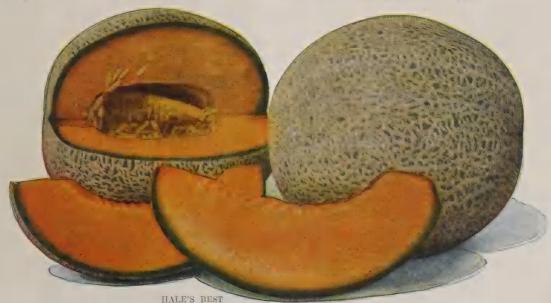

You will find Jung's Seeds to be of the highest quality. Utmost care is used to see that you will get seeds that will grow and produce profitable crops. Our packets are liberally filled with "full of life" seeds.

Mrs. Ralph H. Schwartz, Wis.—This is the third year I amplanting your seeds and I like them very much.

## Super Hales Best Cantaloupe

Many years of extreme care were spent in producing this splendid strain of cantaloupe. No matter what price you pay you cannot get a better melon. It is extremely early, very productive, uniform in size and the deep orange flesh is of the highest quality. The melons are heavily netted and the flesh very solid, making it one of the very best shippers. You will never regret having planted this fine melon. Extra Select Seed: Pkt. 8c.; oz. 15c.; 1/4 lb. 40c.; lb. \$1.50.

## \* \* SIX SUPERB VEGETABLES \*

### Fireball Beet

Excellent fo the Home Garden or Canning.

This early globe-shaped beet of excellent quality is especially esteemed on account of its dark red color, which extends entirely through the beet and without the light colored ring seen in some varieties. The medium sized beets are smooth and handsome and are now being largely used for canning as well as for the home garden or market. It retains its good quality even after it gets large, Matures in about 50 days. Pkt. 7c.; oz. 12c.; 1/4 lb. 35c.

## Marion Market Cabbage

Fully equal to Copenhagen Market in every way and in addition is resistant to "yellows." Heads are round, very solid and mature in 72 to 75 days. Grows a close compact plant and need not be set over 20 to 24 in. part in the rows. Pkt. 80:; ½ 02. 180.; 02. 30c.; ¼ lb. \$1.10; lb. \$4.00.

## Extra Early Fireball Radish

A superb strain of extra early radish and if not sown too thick practically every plant makes a fine radish. The radishes are globe shaped, bright red, very uniform and have but few leaves. Flesh is pure white, crisp, solid and of delicious flavor. Well adapted for both garden and greenhouse. Pkt. 7c.; oz. 15c.; 1/4 lb. 35c.

E. A. McGinnis, Oregon City, Oregon—I have had great success with your seeds and plants. Never have I had less than 98 per cent germination of seeds.

## Improved Long Green Cucumber

This is still one of the best and most widely grown large cucumbers. You will find our stock to be a very superior strain as it will produce fruits 12 to 15 in. long, of a deep rich green color and uniform shape. The young fruits are largely used for pickling and full sized fruits are used for slicing and for sweet pickles when fully ripe. Pkt. 8c.; oz. 15c.; 1/4 lb. 40c.; lb. \$1.50.

## Jung's Extra Early Golden Bantam Sweet Corn

We feel that we have about as fine a strain of Golden Bantam as is possible to get as over 15 years have been spent in selecting a strain for earliness and sweetness. Anyone wishing Golden Bantam that is extra early, tender, sweet and delicious will not be disappointed by planting this seed. Pkt. 8c.; ½ pt. 20c.; pt. 30c.; qt. 50c.

## **Quality Topper Tomato**

A very good early Tomato that has about the finest flavor we have yet found in tomatoes. It is also a heavy yielder as the plants are resistant to wilt. Fruits are bright red, globe shaped, 3 to 3½ in. in diameter, smooth and solid. Select Seed of our own growing: Pkt. 8c.; ½ oz. 25c.; oz. 40c.; ¼ lb. \$1.35, lb. \$4.00.

L. H. Woffle, Scottsbluff, Nebr.—There are none other as good as Jung's Seeds. I plant them every year and have everyone beat on a good garden.

Mrs. Leslie Roof, Forest City, III.—I have bought lots of seed but never had them come up like Jung's, seems like every seed

This new strain of cabbage is practically 100 per cent resistant to "yellows". It is a remarkably fine fall and winter cabbage, being a good shipper and splendid keeper. The heads are round, weigh 6 to 8 lbs., and are very uniform in size and shape. We highly recommend this for either the home garden or market. Pkt. 10c.; ½ oz. 18c.; oz. 30c.; ¼ lb. \$1.15, or market. lb. \$4.00.

## Extra Early Honey Cream Sweet Corn

Dwarf in Growth. Requires Little Space. Deliciously Sweet and Tender.

By far the most tender and delicious of all Sweet Corns. Make a planting of this fine corn and we are sure you will want it every year as for quality it stands at the head of the list. It is very early, the stalks are dwarf and may be planted much closer than the larger varieties. Many stalks produce 2 and 3 ears which are well filled with delicious snowy white kernels. Pkt. 10c.; ½ pt. 25c.; pt. 35c.; qt. 55c.

## Imperator or Golden Giant Carrot

GIANT SIZE. FINEST QUALITY. IMMENSE YIELDER

This fine Carrot combines large size, handsome appearance and superior quality. Planted in rich mellow soil they will grow to weigh 3 to 4 lbs. and although of such large size they are of the finest quality, tender and free from core and stringiness. Pkt. 10c.; oz. 20c.; 1/4 lb. 60c; lb. \$2.25.

#### Giant Tendersweet Peas

Immense Sized Pods. Heavy Yielder. Superb Quality.

A new main-crop Pea that is in a class by itself. Vines are strong and thrifty. 24 to 30 in. tall, require no brush and bear the giant sized pods in profusion. Pods are 5 to 5½ in. in length and contain 8 to 12 large bright green peas that are very tender and of the very highest quality. We are confident you will be more than pleased with the size, yield and quality of this splendid new Pea. Pkt. 8c.; ½ pt. 20c.; pt. 30c.; qt. 55c.

#### **Giant Oxheart Tomato**

THE LARGEST OF ALL TOMATOES Superb in Quality. Firm, Solid Flesh.

If you wish to surprise your friends with truly large tomatoes plant Oxheart, single fruits have been grown weighing 2 lbs. each. The fruits are oxheart shaped, deep pink in color and are almost all solid meat as they contain but few seeds. The size and quality of this fine tomato will delight and please you. Pkt. 10c.; ½ oz. 35c.; oz. 60c.

## Special Offer No. 36

One liberal pkt. of each of these Five Select Vegetables for 35c.

J. W. Jung Seed Co., Randolph, Wis.—— 13 —

#### Disease Resistant Cabbage Earliest Golden Acre

An extra fine extra early Cabbage that has all the good qualities of Golden Acre An extra fine extra early Cabbare that has all the good qualities of Golden Acre and in addition is resistant to "yellows" and for this reason can be successfully grown in sections where this disease will destroy other varieties. Plants grow very compact and can be set close together. The heads grow to good size, are round, very solid and uniform in size and shape. Extra Select Seed: Pkt. 8c.; ½ oz. 15c.; oz. 25c.; oz. 25c.;

GOLDEN ACRE

#### MUSK MELON Pride of Wisconsin

A splendid new Musk Melon combining the fine quality of Honey Rock with the firm flesh and hard rind of Hearts of Gold and will ship well for long distances. The melons are oval in shape, weighing 3 to 4 lbs. The flesh is unusually thick, firm, deep orange colored, fine grained and remarkably sweet and succession. and remarkably sweet and sug-ary. The rind is very hard, of a pearly gray color and heavily covered with a distinct netting. It you wish to grow some fine melons either for home use or market you will make no mis-take in planting this fine new melon. Extra Select Seed: Pkt. 8c.; oz. 15c.; 1/4 lb. 40c.; lb. \$1.50.

PRIDE OF WISCONSIN

## Golden Gem Sweet Corn

Extra Early. Luscious Quality. Heavy Yielder. Very Profitable for Early Markets.

A wonderful new sweet corn that will appeal to all lovers of truly delicious corn. It has the luscious sweet flavor of Golden Bantam and is fully a week earlier. Although extremely early the ears are of good size, 6 to 7 in. long, and contain 8 rows of delicious tender kernels. The stalks grow only 2½ to 3 ft. tall and often bear two ears. As the stalks are dwarf it can be planted quite close and a great many ears grown on a great many ears grown o can be planted quite close and a great many ears grown on a small piece of ground. Pkt. 8c.; 1/2 pt. 20c.; pt. 35c.; qt. 60c.

### Jung's Select Southport Yellow Globe

This is one of the most sat-This is one of the most satisfactory and popular varieties raised for family use or market. It is an enormous yielder, hardy and reliable, making under normal conditions often up to 1,000 bushels per acre. The onions are models of perfection growing uniformly deep and extending the large averaging nine or growing uniformly deep and ex-tra large, averaging nine or ten inches in circumierence. The color of the skin is an at-tractive golden yellow, the flesh snow white, firm and juicy. The small necks enable the onion to ripen down evenly insuring good keeping qualities. Pkt. 8c.; oz. 25c.; 1/4 lb. 90c.; lb. \$3.25.

With Jung's "Quality" is the first consideration.

### CARROT

#### **Coreless or Early Market**

A handsome half-long variety, the shape of which is well shown in the illustration. They average 6 inches in length by 1½ inches in diameter and are ready for use quite early. The skin is very smooth and clean and of rich orange color. The flesh is of fine texture, free from all stringiness while the core is very small, having no pithy or woody fibre. Our sales of this grand Carrot are increasing every year. Pkt. 7c.; oz. 15c.; ¼ lb. 45c.

GOLDEN GEM

JUNG'S SUPREME EARLY

CORELESS

HENDERSON'S BUSH

#### TOMATO

### Jung's Earliest Tree

Enormous Yielder, Bright Red. Early and Large.

A splendid variety for the home garden, It is the largest fruited dwarf tree Tomato. The plants grow to a height of about two feet and are stiffly erect until they become overloaded with fruit. The fruit is produced in clusters of three to five and clusters of three to five and as the growth is close-jointed each plant produces a large number. The tomatoes are of large size, and are smooth and solid. Fruits have a solid, meaty center and no hard core and produces but very little seed. We consider the Earliest Tree invaluable for the home garden or shipping purposes. Pkt. 8c.; ½2 oz. 20c.; oz. 35c.

Jung's Earliest Tree Tomato

## TWO FINE MELONS FOR SMALL GARDENS

### **MUSK MELON** Henderson's Bush

The vineless character of growth or "bush habit" of this fine melon is a distinct advantage as it can be grown even in small gardens where room is limited. The plants are very sturdy and vigorous, growing 18 to 24 inches long. The fruits average 4 to 5 inches in diameter and are produced in abundance. The flesh is very deep, edible to the rind, light green in color, lusciously sweet and juicy and of most gratifying flavor. Pkt. 8c.; 3 pkts. 20c.; oz.

Archie H. Connolly, N. H.—Owing to the great drouth that crippled the most of the gardens in this section last year, I raised and produced more by using JUNG'S seeds than anyone in these parts.

H. H. Clark, Alaska—We think your seeds are fine and have fine luck with them, tried some left over seeds from 3 years, even they grew fine.

BABY DELIGHT

## WATER MELON **Baby Delight or Climbing**

Persons having small gardens may have watermelous of their own grow-ing as this melon will climb up a trellis or fence but may also be grown like other varieties. The vines are very vigorous in growth, the heavy foliage nearly concealing the fruit. The first melous ripen very early and the healthy vines keep on bearing heavily until end of the season. The rich carmine red flesh is always solid and of exceptionally sweet flavor. Pkt. 8c.; oz. 20c.

#### Special Offer No. 82

One packet of each Bush Musk Melon, Climbing Water Melon and Tree Tomato for 20c.

PLENTIFUL BUSH BEAN

## "Book on Gardening Free"

At considerable expense we have prepared a booklet of complete planting instructions on Vegetables and Flow-ers. A copy will be sent free, when requested, with every order of 25c or more.

#### "Plentiful" Bush Bean

A new green pod bush bean that gives you both quality and quantity. The vigorous bushes bear a heavy crop of long straight pods. Pods are 6 to 8 in, long, ½ in, wide, very fleshy and free from strings.

#### Henderson's Bush Musk Melen

An ideal melon for the small garden as the plants require so little room, hills need not be over 3 ft. apart. Plants are sturdy and vigorous, growing 18 to 24 in. long. Fruits are 4 to 5 in. in diameter; flesh is light green, lusciously sweet and of most gratifying flavor.

### **Jung's Giant Climbing Tomato**

Enough tomatoes for an average family can be grown from a small space by planting this vigorous tomato and supporting the plants on stakes or a trellis. Vines will grow 6 to 8 ft. tall and bear tremendously. Fruits are very large in size, smooth, solid, deep red in color and ripen up evenly to the stem. May also be grown like ordinary varieties but be sure to give the plants plenty of reom

#### Golden Gleam Nasturtium

One of the most popular flowers ever introduced and well deserves its popularity. It is a double flowering, sweet scented Nasturdium of rare beauty and being so easy to grow and free flowering it is only natural that it has become so popular. The large double golden flowers, 2 to 2½ in. across are borne on long stems and have a delightful perfume.

### **Jung's Superb Mixed Cosmos**

An unusually fine mixture of these popular annuals being made up of Giant Sensation, Double Crested, Or-ange Flare, etc. They will be in flower from early sum-mer until hard frosts. A row of these flowers will be a grand sight and will also provide many bouquets.

## Jung's Will Resistant Asters

This fine strain of Asters is resistant to will and will succeed where many other varieties would fail. The seed we offer is a superb mixture of large flowering varieties. On good soil the plants will grow 2 to 3 ft. tall and produce giant double flowers.

16 — J. W. Jung Seed Co., Randolph, Wis.

IMP. LONG GREEN

## JUNG'S FAIRFIELD GIANT Jung's Select Cucumbers

Jung's Fairfield Giant or Longfellow

The Darkest Green Cucumber in Cultivation

The vines are unusually vigorous in growth and produce an enormous crop of handsome fruits. They are of a deep green color and grow from 12 to 18 inches long, being one of the handsomest cucumbers grown. When the fruits are from 6 to 8 inches in length or just the right size for slicing, they are practically solid, there being hardly a trace of seed to be found. The pure white fiesh is very firm, sweef and crisp and of the finest flavor. As shown in the illustration the fruits are very long and slim, which together with their deep green color will make them bring the top prices on all markets. Pkt. 8c.; oz. 15c.; ¼ lb. 45c.

JAPANESE CLIMBING

## Improved Long Green

Deep Green Color. Fine for Pickling or Slicing. This is one of the best and most popular standard varieties and you will find our stock to be a very you will find our stock to be a very fine strain. The cucumbers are a rich dark green, grow 12 to 16 inches in length and are of the highest table quality. Flesh is very firm and crisp. The young fruits are largely used for pickling and full sized cucumbers are especially fine for slicing and making sweet pickles when the fruits are ripe and yellow. Pkt. 8c.; oz. 15c.; 1/4 lb. 40c.

## Japanese Climbing

A fine cucumber for small gardens as you can grow them on a trellis or A time cucumber for small gardens as you can grow them on a trent of a free fence; also an excellent variety to grow like other varieties. Comes into bearing quickly and is very prolific, as many as 40 fruits having been grown on a single vine. Full grown fruits will measure 12 to 16 inches long. Flesh is pure white, tender and of delicate flavor. When young the fruits make very attractive pickles. Pkt. 5c.; oz. 12c.; 1/4 lb. 35c.

EARLIEST OF ALL

Earliest of All By planting this variety you can have cucumbers ready to use when others are only in blossom. Not only is it extra early but it also produces fruit of fine quality and is very productive. Excellent for slicing or pickling and will continue in bearing a long time if fruits are picked. Pkt. 7c.; oz. 12c.; bearing a 1/4 lb. 30c.

Everbearing
This is a very early variety and extremely prolific. If the fruits are kent gathered, vines will continue in bearing throughout the season. The fruits are of a rich, dark green color, average 4 to 5 inches in length. Owing to its productiveness it is a fine variety to plant for producing small pickles. Pkt. 50.; 02. 12c.; 14. lb. 35c. oz. 12c.; 1/4 lb. 35c.

## Chicago Pickling

"Hytox".

The most popular and widely grown pickling variety. The fact that it is used by most of the large pickling factories is the best proof of its leadership in its class. The vines are very vigorous growers and will produce a large number of fruit if kept gathered before they become too large. Skin is extremely thin, tender and free from toughness when picked. Quality excellent. Pkt. 7c..; oz. 12c.; 1/4 lb. 30c.

This herb is used in large quantifies in the making of Dill Pickles; also for flavoring vinegar. Pkt. 5c.; oz. 15c.

WHITE WONDER

White Wonder

A wonderfully good slicing cucumber. In color it is a beautiful pure
snow white. Grows to good size, usually 8 to 10 inches long
and is very uniform. In season almost the same as White
Spine but keeps in catable condition longer. Its smooth,
clear surface makes this an ideal pickle. The firm, crisp flesh
with its pleasing flavor is just right for slicing or in salads.
WHITE WONDER furnishes you Quantity and Quality. A
package of seed yields Cucumbers in abundance for canning,
pickling and slicing. Pkt. 8c.; oz. 15c.; 1/4 lb. 40c.

Mrs. Hilda Brown, lowa — We had wonderful garden from your seeds. the Sweet Corn was very early and very

Jung's Northern Grown Sweet Corn

Our stocks of Sweet Corn are mostly of our own growing and is of extra fancy quality and high germination. You will find that for earliness and sweetness our northern grown seed is way ahead of western grown seed. If you want to be the first on the market with Sweet Corn of quality plant some of this seed.

Our Sweet Corn is grown on our seed farms where Stewart's Disease or wilt is unknown.

### Jung's Extra Early Golden Bantam

The Best, the Largest of all Early Sweet Corns. Retaining Its Delicate Tenderness Even When a Little Old. This variety is pronounced the favorite because of its extreme early character, vigorous growth and has the richest flavor of all. Besides being early. It is very hardy and permits of the earliest planting. The stalks are dwarf in growth averaging four feet in height. The cars are from 5 to 7 inches long and the grain is a bright golden yellow color. In flavor it is exceptionally rich and sugary and by every one admitted to be the richest flavored Sweet Corn. The small stalks can be planted closely together. Sweet Corn. The small stalks can be planted closely together. For productiveness and quality it leads all varieties. The seed we offer is a special stock of our own growing and for earliness and sweetness is unexcelled. Pkt. 8c.; ½ pt. 20c.; pt. 30c.; qt. 50c.

## Jung's Extra Early Fortune

This variety originally came from Canada and at our Fair-field Farm trials it was the earliest of all. There is no product of the garden so eagerly waited for as the first sweet corn of the season. Early Fortune is the real tender, juicy sweet corn The season. Early Fortune is the real tender, juicy sweet corn ready for use before the summer has really commenced. On account of its extreme earliness, Early Fortune is especially adapted for planting in northern latitudes and in high altitudes where other varieties fail entirely. The stalks do not grow very large but have two and often three unusually large ears. Ears are about seven inches long and well filled with sweet and tender grains. Pkt. 7c.; ½ pt. 18c.; pt. 30c.; pt. 50c.; pt. 50c.; nt. 50c.

## Early White Delicious

Large Ears. Early Maturity. Superb Quality. One of the largest eared, sweetest flavored early varieties. Grows a strong, vigorous stalk, many producing two ears. Ears are 7 to 9 in, long and contain 12 to 14 rows of pearly white grains which are remarkably sweet and tender. Pkt. 7c.; ½ pt. 18c.; pt. 30c.; qt. 50c.

## Jung's Extra Early Honey Cream

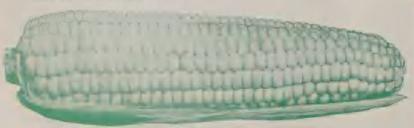

Requires Little Space. Deliciously Sweet and Tender.
By far the most tender and delicious of all Sweet Corns.
Make a planting of this corn and we are sure you will want
it every year as for quality it stands at the head of the list.
It is very early, the stalks are dwarf and may be planted much
closer than the larger varieties. Many stalks produce 2 and 3
ears which are well filled with delicious snowy white kernels.
Pkt. 10c.; ½ pt. 25c.; pt. 35c.; qt. 55c.

## Golden or Bantam Evergreen

This variety of golden or yellow Sweet Corn combines the size of the Evergreen ear with the color and quality of the Golden Bantam. In crossing these two excellent varieties none of the good qualities have been lost, rather it surpasses them in sweetness and tenderness. The ears are 7 to 9 inches long, well filled with deep kernels of rich yellow corn. It comes just right in season to follow the first early sorts. The larger ear right in season to follow the first early sorts. The larger ear and prolonged season make it the favorite both in the home garden and for fancy market trade. All lovers of Sweet Corn must at least give Bantam Evergreen a trial. Pkt. 8c.; ½ pt. 20c.; pt. 30c.; qt. 50c.

## White Evergreen

The Leading Late Variety of Sweet Corn. The most valuable Sweet Corn ever produced. White Evergreen is much superior to Stowells. It retains all the most desirable features with the added merits of pure whiteness in color, a more tender grain and distinctly sweeter flavor. The ears average very large and are well filled to the tips with the long sweet grains of pure whiteness and most delicious flavor. The stalks are very strong growers from 6 to 7 feet high and sometimes bear three fine ears to a stalk. The ears contain 16 or more rows of deep grains which are protected by a thick heavy husk. Pkt. 7c.; ½ pt. 17c.; pt. 30c.; qt. 45c.

EARLY WHITE DELICIOUS

SELECT GRAND RAPIDS

### Select Grand Rapids

A well known forcing, variety. It makes large bunches of light green leaves with fringed edges. Its upright habit of growth permits close planting. It will make a quick growth under adverse conditions and is not subject to rot. Quality excellent. Pkt. 5c.; oz. 15c.; 1/4 lb. 45c.

JUNG'S BEST OF ALL

### Jung's Best of All

A fitting companion to our famous "All Cream" Lettuce which it resembles very much except that it does not have the pink or brown edges on the leaves. It can be relied upon whether sown early in the spring or during the summer as it is unsurpassed as a heat resister. The leaves are of a handsome green, beautifully crumpled and are crisp, tender and sweet at all times. Pkt. 70.; 0z. 15c.; 1/4 lb. 40c.

#### "Cabbage Lettuce" Allheart

This magnificent lettuce stands hot weather better than any of the rich butter varieties. Plants make firm heads nearly as large and almost as solid as a cabbage. The heads are light green outside while the inner blanched portion is creamy yellow and of a delicious rich buttery flavor. Pkt. 5c.; oz. 12c.; 1/4 lb. 35c.

## LETTUCE

#### Jung's All Cream

This remarkable Lettuce does not head but makes a large loose bunch of leaves of superlative quality. The leaves grow upright, the upper part of the outer turning outward very gracefully and are handsomely wrinkled. The inside leaves are almost white and wonderfully crisp and tender. It grows quickly, is ready for use early and remains for weeks. It is the cream of all sorts and should be grown in every garden. Pkt. 8c.; oz. 20c.; 1/4 lb. 50c.

Mrs. T. Talenski, III .- You should know how well pleased I am with all your seeds, the All Cream Lettuce is excellent, none better anywhere.

## Early Surehead

JUNG'S ALL CREAM

specially selected strain of lettuce that is ready to use early and sure to form heads. Outer leaves are medium green while the center or hearf blanches a rich creamy yellow. By planting this variety you can grow head lettuce as easily as radishes. Sow the seed early and as soon as well started thin out plants to stand 4 to 5 in, apart in the rows. Pkt. 7c.; 1/2 oz. 12c.; oz. 20c. A specially selected strain of lettuce that

## Special Offer No. 5

In order to have a long supply of crisp, tender Lettuce plant the following varieties and make sowing once each week.

Jung's All Cream Jung's Best of All New Iceberg Earliest Wayahead

1 Pkt. of each 25c. 1 Oz. of each 65c.

CELERY OR COS LETTUCE

## Celery or Cos Lettuce

Celery or Cos Lettuce is highly esteemed for its crispness and mild flavor. This variety grows compact, upright plants 10 in, tall which will head without tying. Hearts blanch to a rich creamy color and are of remarkable fine quality. Give the plants plenty of room so they can form heads. Pkt. 5c.; ½ 02. 10c.; oz. 15c.; ¼ 1b. 35c.

#### Iceberg

The usual solidity of the heads is assured by the large white main ribs of the leaves, each of which curving strongly into the center acts like a truss making it impossible for the leaves to open outward and expose the center which is thoroughly blanched. It is quick growing and always crisp and tender, whether grown in early spring or in the hot days of summer, The heads are of good size. Pkt. 7c.; oz. 15c.; /4 lb. 40c.

### Earliest Wayahead

This is our quickest growing and most attractive extreme-early Lettuce producing handsome solid heads fully one week earlier than Black Seeded femis Ball. Its quality is unsurpassed; the heads are very solid, have weighed 56.52, when trimmed. The interior of the heads is blanched to a beautiful creamy color while the leaves are tender, juicy and sweet flavored. The quality of this variety is unequaled among the early sorts. Pkt. 7c.; oz. 12c.; 1/4 oz. 35c.

W. D. Taylor, N. Car.—We sure do like your seeds, especially the Sure-

CHICKEN OR RABBIT LETTUCE

#### Chicken or Rabbit Lettuce

Makes the best green feed for chickens Makes the best green feed for chickens or rabbits and you can grow immense quantities on a small piece of ground. When cut it immediately starts a new growth or the leaves can be pulled off the stalks and new ones will grow in a short time. Does not make a head but grows stalks 2 to 3 feet high which are loaded with leaves. Pkt. 7c.; oz. 12c.; 1/4 lb. 30c.

BANANA MUSK MELON

LARGE AMERICAN - Most LANGE AWERICAN MOST highly esteemed for fla-voring soups, stews, etc. The plants are of vigorous growth and have extra long stems which blanch to a snowy whiteness. Cul-tivate the same as for on-ions Pkt 5c. oz 15c. ions. Pkt. 5c.; oz. 15c.

#### MUSTARD

GIANT CURLED—The leaves are large, light green with a tint of yellow, much crimped and frilled at edges. The plant is upright, or slightly spreading in growth. This variety is highly esteemed in the South for the market as well as the home garden on account of its vigorous growth, hardiness and good quality. Pkt. 5c.; oz. 10c.

#### Banana Musk Melan

A remarkably fine melon that looks and tastes like a banana. The fruits grow 18 to 24 in. long, flesh is deep orange colored, solid and sweet, and spicy in flavor. Try a few of these melons in your garden this year, any which you don't eat can be sold at a good price. Pkt. 5c.; oz. 12c.; 1/4 lb. 30c.

#### OKRA

WHITE VELVET-The long slender pods of Okra are very delicious when sliced and cooked in soups. While this is its chief use it can be boiled and served like other vegetables. The pods should be gathered while young as they are then very tender. Pkt. 5c.; oz.

Mrs. Anna Pitney, Ore. planted as good seeds as JUNGS, every-thing has always been first class.

MOSS CURLED PARSLEY

#### PARSLEY

MOSS CURLED—The leaves are of an extra dark color. It is very productive and on account of its densely curled character of leaves a large quantity can be gathered in a short time. It is much used for flavoring and garnishing, Pkt. 5c.; oz. 10c.

TURNIP ROOTED—This variety, the roots of which resemble a small parsnip, is used in flavoring soups, stews, etc. For winter use store the roots same as turnips; as easy to grow as carrots. Pkt. 5c.; oz. 10c.

## MUSK MELOP

You will find our melon seeds to be unusually fine and true to type. All of the melons are hand selected from crown set fruits and we are confident that better seed cannot be had at any price.

This seed will produce a very superior crop of melons that ripen evenly and are uniform in size and appearance. Try this seed we know you will be more than pleased; our sales of this selsct seed are increasing every year.

### Jung's Special Extra Early Knight

Positively the earliest green-fleshed musk melon ever grown. Of medium size weighing from 2½ to 4 pounds. The skin is green ribbed and netted, the flesh deep and thick and light green in color, inclining to yellow towards the center. In flavor it is exceedingly fine. A heavy cropper and absolutely the earliest of all musk melons. We recommend it particularly to all whose profit depends upon being first in market and their uniform size and shape combined with their delicious flavor, sell rapidly at high prices. If you want a firm. solid melon and the first on the market plant EARLY KNIGHT, Pkt. 7c.; oz.12c.; ¼ lb. 35c.

HEARTS OF GOLD

## Jung's Select Hearts of Gold This is a melon of the highest quality, the deep golden salmon

This is a melon of the highest quality, the deep golden salmon flesh is so sweet it will make your mouth water. It is an ideal shipping melon as it has a tough rind, also very desirable for the home garden. The melons are of medium size averaging 5 to 6 inches in diameter, yet they are very heavy because of the thick flesh and small seed cavity. The netting is heavy and dense, extending practically over the entire melon. The vines are vigorous blight resisting and very productive. Ripens early, Our seed is extra select being saved only from the very best melons. Pkt. 8c.; oz. 12c.; <sup>1</sup>/<sub>4</sub> lb. 35c., lb. \$1.25.

#### Mildew Resistant Musk Melon Imperial No. 45

A wonderfully fine melon resistant to mildew making it possible to grow melons on soil where other varieties would fail. It ripens early melons are oval shaped, 6 in. long, heavily netted and one of the best shippers, Flesh deep orange, very thick, fine grained and one of the highest quality. Pkt. 8c.; oz. 15c.; 1/4 lb. 40c.; lb. \$1.35.

#### EXTRA EARLY KNIGHT

#### Giant Early Wonder

Mammoth Size. Superb Quality. Beautiful Appearance. An Excellent Melon for the Home or Market Garden.

Market Garden.

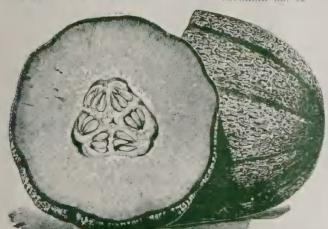

A new Musk Melon combining extra large size, fine appearance and superbiquality. Although of the largest size it ripens early (85 to 90 days). Melons are slightly oval in shape, 8 to 10 in, long and 6 to 7 in, in diameter, rind heavily netted, a sure indication of quality. Flesh is very thick, deep orange in color, fine grained and very sweet and delicious. Extra Select Seed: Pkt. 10c.; oz. 20c.; 1/4 lb. 50c.; lb. \$1.75.

Jung's Big Profit

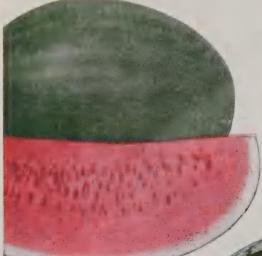

An excellent main crop, medium to large, oval, salmon-fleshed melon. The vines are vigorous and productive. The fruits are slightly oval, dark green, slightly ribbed and partly covered with shallow gray netting. The flesh is rich orange-salmon, very thick and fine grained and highly flavored. Of vigorous growth, the foliage is of such firm texture that the vines resist the attack of insects and blight. The seed cavity is so small there is no tendency towards cracking open at the blossom end. Extra Select Seed: Pkt. 7c.; oz. 12c.; 1/4 lb. 30c.

JUNG'S BIG PROFIT

GIANT EARLY WONDER

# WATER MELON

Northern Sweet

A new extra early water melon introduced by the Minn. Exp. Station. It has been ripened as far north as Winnipeg, Can., has been grown to maturity in 75 days. Not only is it the earliest variety but is also of very good quality; flesh is bright red, crisp, sweet and sugary. Melons weigh 10 to 12 lbs., rind dark green with a lighter stripe. Pkt. 8c.; oz. 12c.; 1/4 lb. 30c.; lb. \$1.10. Pkt. 8c.; lb. \$1.10.

Fight Melon Bugs with Hitox—See Page 1.

FORDHOOK EARLY

### Fordhook Early

Fordhook Early

This is an extra early watermelon that is of good size and quality. The fruits are of large size, rather short and blocky in form with large diameters. Flesh is bright red, crisp, swee and of splendid quality and continues to improve after ripening. The heart is large, there is no seed cavity and very few seeds. The vines are of strong, vigorous growth, setting large melons in good numbers. Skin is dark green with occasional faint stripes of light green.

Pkt. 5c.; oz. 10c.; 1/4 lb. 25c.

O. G. Westphal, Mich.

Your melons are the finest I have ever raised and all the seed I ordered was good. That is why I am ordering them again.

tough which makes it a good shipper. Flesh is richly colored, very sweet and juicy and melons seem to be all heart as the seeds are small. You will find this excellent melon uniformly good in size, shape and quality either for market or the home except Pkt Sc. az 120 + 14 lb. home garden. Pkt. 8c.; oz. 12c.; 1/4 lb. 30c.; lb. \$1.10.

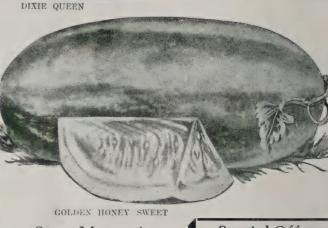

NORTHERN SWEET Dixie Queen LARGE IN SIZE, SUPERB IN QUALITY, HANDSOME IN APPEARANCE A superb new Water Mel-

W. H. Hoffman, N. J.—I had good success with your seed last summer. Everything grew fne.

J. W. Perry, N. Y.—Used your cantaloupe and water melon seeds last year and was very well pleased. The watermelons were especially fine.

Delicious Yellow-Fleshed Water Melon. Ripens Very Early.—A highly desirable yellow fleshed watermelon. The flesh is golden-yellow in color, firm, crisp and of luscious sweetness. The melons are oblong in shape, light green with mottled stripes of deep greeen, rind is thin but hard so will keep for a considerable time. It not only possesses high quality but is also one of the first to ripen. We highly recommend this fine new melon. Pkt. 7c.; oz. 12c.; 1/4 lb. 35c.

Giant Size-Superb Quality-A new, very large, rich green round melon of wonderful quality. The flesh is bright scarlet, extremely sweet, solid through, almost all heart and but very few seeds. Anyone after eating this melon will invariably ask

arter earning this meton with invariably ask for it again. It ripens early for so large a melon, vines are vigorous growers and bear abundantly. You will make no mistake when you plant Stone Mountain, Pkt. 7c.; oz. 10c.; 1/4 lb. 25c.; lb. 95c.

STONE MOUNTAIN

## Special Offer No. 6

HALE'S BEST JUNG'S BIG PROFIT FORDHOOK EARLY HALBERT HONEY KING WINTER MELON 1 Pkt. of each for 25c. L Ounce of each for 65c.

KING WINTER MELON

#### WATER MELONS-Continued

## Jung's Improved Peerless

We offer a highly improved strain of this popular melon; you will find it to be earlier and of much better quality than the seed usually offered. The melons are oblong and often attain a weight of 25 lbs., rind is light green with darker markings. Flesh is brilliant red. deliciously sweet and melting. Pkt. 5c.; oz. 10c.; 14. lb. 25c. 1/4 lb. 25c.

#### King Winter Melon

By planting this variety you can have watermelon for your Christmas dinner as they are remarkable keepers. The melons are round, have a thin, hard rind and are very solid; they are from 8 to 12 inches in diameter and sell well at all seasons. Flesh is bright red and very sweet. Pkt. 7c.; oz. 15c.; 1/4 lb. 35c.

IMPROVED PEERLESS

## Halbert Honey

The very finest melon in cultivation for home use or nearby markets. A melon that has no equal in beauty, quality and productiveness. The melons are smooth and regular in outline, 14 to 18 inches long and 6 to 8 inches in diameter. Color of the rind is a clear, glossy deep green, The flesh is a beautiful crimson, extending to within half an inch of the rind which is so tender that it will not stand shipping a long distance unless carefully handled. The first melons ripen early and the vines continue to develop fine fruit throughout the season. The sweet flesh melts away in your mouth like honey. Pkt. 5c.; oz. 10c.; 1/4 lb. 25c.

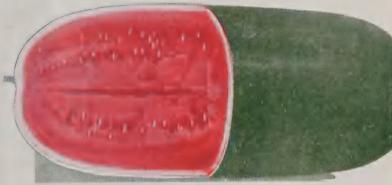

HALBERT HONEY

## Disease Resistant Melon

In many sections of our country or linary strains of Water Melons often fail due to fusariam wilt. This destructive plant disease may be present in the soil for many years and so far as is known cannot be successfully controlled. To combat this disease State Colleges have developed strains that are resistant to this ailment.

IMPROVED KLECKLEY SWEETS NO. 6 (Wilt PRICE RESISTAND. 6 (Wilt Resistant)—A great improvement on the old Pride of Muscatine. It has the resistant quality of the Pride of Muscatine and the quality of the best strains of Kleckley Sweets; in addition it is also a splendid shipper as the rind stugh. The melons are obling in shape, about 22 inches long and 10 to 12 inches in diameter. Pkt. 8c.; oz. 15c.; 1/4 lb. 35c.; lb. 21.25

IMP. KLECKLEY SWEETS NO. 6

## Jung's Select Onion Seed

We make a specialty of HIGH GRADE ONION SEED. It is better to plant no Onions at all than to sow seed of poor quality. Our Onion Seed is all grown from carefully selected true-to-type bulbs. Such seed may cost a little more but will be by far the cheapest when you compare the resulting crop.

### Giant Sweet Spanish

THE GIANT OF ONIONS. A SURE PRIZE WINNER. HANDSOME APPEARANCE. EXCELLENT KEEPER.

It is no longer necessary to pay high prices for large sized sweet onions when you can grow them in your own garden by planting Jung's Select strain of this popular onion. This onion grows to very large size, specimens having been grown weighing 2 lbs.

The bulbs are globe shaped and have a very small neck, a sure indication of fine quality. The skin is a beautiful light straw color; on account of their large size and handsome appearance they always sell at a premium over other varieties. The flesh is pure white, tender and very mild and of delicate flavor, can be eaten raw like an apple. An excellent keeper for such a large onion. If you wish to raise fine crop of large onions you should plant our select strain of Giant Sweet Spanish. Pkt. 15c.; oz. 45c.; 1/4 lb. \$1.80, 15. \$6.00.

## Giant Sweet Spanish Onion Sets

We are now able to offer you "sets" of this popular giant sized onion. You will be surprised at the size and quality of the onions you can raise from these sets. Supply limited. Pt. 20c.; qt. 30c.; 4 qts. \$1.10, postpaid.

C. E. Small, New York.—Had good results with your garden seeds last season. 45 Sweet Spanish onions weighed 50 pounds. Sold my entire crop 4 cents per pound.

GIANT SWEET SPANISH ONION

J. W. Juny Seed Co., Randolph, Wis.—— 19—

## THREE TRUE GLOBE ONIONS

The Southport Globe Onions have increased wonderfully in public favor during the past few years and they well deserve their popularity. In almost all markets they invariably bring their popularity. In almost all markets they invariably bring top prices. They are not only of handsome appearance, remarkable solidity and good keepers, but also fully equal in yield to the best strains of any variety.

#### Select Southport Yellow Globe

This is one of the most satisfactory and popular varieties raised for family use or market. It is an enormous yielder, hardy and reliable, making under normal conditions often up to 1,000 bushels per acre. The onions are models of perfection, growing uniformly deep and extra large, averaging nine or ten inches in circumference. The color of the skin is an attractive golden yellow, the flesh snow white, firm and juicy. The small necks enable the onion to ripen down evenly insuring good keeping qualities. Pkt. 10c.; oz. 40c.; /4 lb. \$1.45, lb. \$5.10.

#### White Silverskin

A leading white, flat onion. The bulbs attain a good size, ripen evenly and the color is a beautiful silvery white when cured, its shape is flat but symmetrical. For a white variety it is not only early but also a good keeper. For slicing and boiling it is one of the best, the flesh being mild and tender. It is largely grown for pickling, being sown three or four times as thick as usual and is also extensively sown for sets. For the family garden it is one of the best. Pkt. 10c.; oz. 45c.; 1/4 lb. \$1.65; lb. \$5.80.

## Select Southport White Globe

The most beautiful onion grown, being of symmetrical globe shape with a smooth satin-like skin forming a perfect silver ball. It grows to a large size, averaging 7 to 9 inches in circumference and is solid and heavy; the flesh is purest white, close grained, mild and of delicate flavor. Owing to its larger size it is later in ripening than the White Portugal or Silverskin. As soon as ripe the bulbs should be stored in a cool, dark or dry cellar. It is a heavy cropper and for the family garden as well as for market it is a valuable onion. Pkt. 12c.; oz. 50c.; ½ lb. \$1.75. 1/4 lb. \$1.75.

#### Select Southport Red Globe

A handsome onion of immense size, averaging from 9 to 10 inches in circumference, solid, heavy and of perfect globe shape. The skin is a glossy deep purplish red color; the flesh is close grained, sparkling white, cooking tender and mild. It is hardy, a splendid keeper and a big yielder, averaging under good culture from 800 to 1000 bushels per acre. Our strain of this seed is unsurpassed, the bulbs being selected for largest size, thus insuring thorough and regular ripening and curing. You will make no mistake in giving this onion a trial. Pkt. 10c.; oz. 40c.; ½ lb. \$1.40; lb. \$4.75.

## Jung's Select Prizetaker

The King of All Yellow Globe Onions

The King of All Yellow Globe Onions

This is one of the largest Onions in cultivation. It is a large beautiful Spanish variety so often seen in the truit stores and markets of the large cities. Bulbs are nearly globe shaped with bright colored skin growing to an immense size the first season from seed. They ripen up without stiff necks and present a very handsome appearance. The flesh is pure white, fine grained, delicious and mild in flavor; fine for fall and early winter use. Bulbs measure from 12 to 14 inches in circumference weighing two pounds each. In markets they sell rapidly at good prices. Pkt. 10c., oz. 55c., ½ lb. \$1.75, lb. \$6.25.

#### Yellow Globe Danvers

This is a standard yellow Onion and is more largely grown than any other variety. The bulbs grow to about 2½ inches in diameter, are nearly globe shape and of a light yellow color. The flesh is pure white and the bulb is extremely hard and solid, its handsome appearance has placed YELLOW GLOBE DANVERS among the leading varieties for the home and market garden. It forms a bulb very early in the season so that it may be used almost all summer and ripens carisp and solid in the fall. It is a very heavy cropper. Our strain of this variety is unsurpassed, Pkt. 10c.; oz. 40c.; 1/4 lb. \$1.40; lb. \$4.90.

## Japanese Onion Sets

The finest thing ever offered in Onion sets and will no doubt displace all other sets. The common sets when grown during the summer often run to seed, these sets instead of running to seed will mature a large and handsame bulb of yellow or golden color, very solid and excellent keeper. Those who have used the sets before are now planting them entirely. We guarantee now planting them entirely. We guarantee them to give satisfaction or will refund your money. Pt. 15c.; qt. 25c.; 4 qts. 95c.,

Geo. E. Haynes, Vermont .- The seeds I have had in past years have been exceptionally fine. I find the Jap Onion Sets the best I have ever had for this section.

LITTLE MARVEL

#### Little Marvel

The vines are of dwarf even growth, averaging fifteen inches in height and are heavily set with fine pods, frequently borne in pairs. The pods average about four inches in length, are square at the bottom and well filled with six to seven large deep green peas. The pods are ready for the table as early as the American Wonder while the peas are larger and the vines produce a heavier crop. The peas retain their attractive dark green color and superb flavor when served at the table. You will be delighted with the choice flavor of Little Marvel. Pkt. 8c.; ½ pt. 18c.; pt. 30c.; qt. 55c.

You can grow more and better Peas by inoculaling the seed—see Page 1.

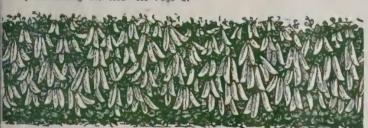

## GARDEN PEAS

#### Blue Bantam

A splendid new pea of sturdy, dwarf growth, one of the best of the large podded early dwarf peas. The vines grow 14 to 16 inches tall, are dark green in color and wonderfully productive, bearing a profusion of handsome, dark green pods which measure 4 to 4½ in, long and contain from 8 to 10 very large dark green peas of superb quality. They mature a little earlier than Gradus with pods fully as large; they require no brush or support. You will plant this variety every year after once trying them out. Pkt. 8c.; ½ pt. 17c.; pt. 30c.; qt. 50c.

Chas. Tobey, Mo.—This is the 10th year we have ordered Jung's seeds and have never found any better. Your Peas are wonderful.

LITTLE GEM

JUNG'S SELECT LITTLE GEM—One of the most popular extra early dwarf peas. The demand for Little Gem increases every year which is a sure indication that it is giving satisfaction. The vines grow 14 to 16 inches tall and require no brush and are literally covered with pods. Peds contain from 6 to 8 peas of fine quality. A great favorite for home and market gardens. You will not be disappointed if you plant our "Gem". Pkt. 7c.; 1/2 pt. 17c.; pt. 30c.; qt. 55c.

EVERBEARING—A fine second-early or main crop Pea which combines quality and yield and will continue a long time if the pods are kept picked. It has a remarkable habit sometimes forming as many as six stalks which accounts for its great yields. The pods are of good size and contain from eight to ten large peas which are of remarkable fine quality. Pkt. 7c.; ½ pt. 17c.; pt. 30c.; qt. 50c.

### EDIBLE PODDED PEA

MAMMOTH MELTING SUGAR—This variety is far superior to all others of the edible class of garden peas, not only in size of pods but also in delicious quality. The large pods are sweet, brittle and tender and have none of the tough lining found in so many of the edible kinds. The pods are used the same as snap or string beans and will also make excellent pickles. Full grown pods measure five inches long and are so tender and brittle that they snap like glass; they have no strings. Pkt. 8c.; /2 pt. 20c.; pt. 30c.; at. 60c.

BLUE BANTAM

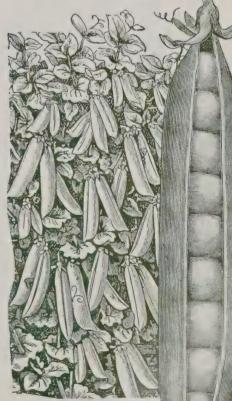

### Giant Podded Early

An exceptionally early pea, as early as Alaska with pods one-fourth larger. Vines grow medium height, very robust and productive. Pods 3½ to 4 in. long and contain 7 to 8 large peas. A very fine extra early Pea that can be sown as early in the spring as the soil can be worked. Pkt. 8c.; ½ pt. 18c.; pt. 30c.; qt. 55c.

### Special Offer No. 7

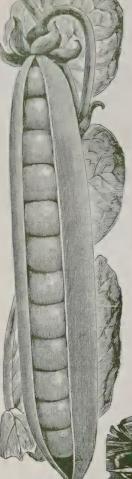

To have m supply of fresh tender peas for a long period of time use the varieties offered here. Giant Podded Early may be sown very early and the others as soon as the soil is warm.

HONEY SWEET

Luscious Garden Peas This is one of the largest podded va-

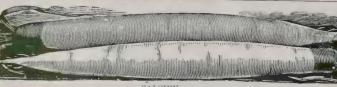

LORD LEICESTER

This is one of the largest podded varieties in cultivation and also a sure cropper. We have grown it for six years and it has never failed to produce a good crop. The plant is of branching habit, growing about tive feet in height with dark foliage. It is ef very vigorous and robust constitution which enables it to withstand drought and mildew. The pods are produced in profusion, mostly in pairs, some measuring 6 inches in length and contain 9 to 12 peas. You will be delighted to show your friends such enormous pods which in addition to large size, combine rich and succulent flavor not surpassed by any other variety. For quality it is superb, the peas fairly melt in your mouth. Pkt. 10c.; ½ pt. 20c.; pt. 35c.; qt. 60c.

Giant Tenders weet Immense Pods. Superb Quality.

A new main-crop Pea that is in a class by itself. Vines are strong and thrifty, 24 to 30 in. tall, require no brush and bear the giant sized pods in profusion. Pods are 5 to 5½ in, in length and contain 8 to 12 large, bright green peas that are very tender and of the very highest quality. We are confident you will be more than pleased with the size, yield and quality of this splendid new Pea. Pkt. 10c.; ½ pt. 25c.; pt. 35c.; qt. 65c.

Jung's Honey Sweet to be had as they are truly of the most delicous flavor actually "sweet as honey". They grow a very healthy stock vine about 18 inches high and require no support. The pods are produced in great profusion; they are 4 to 4½ in. long and contain from 8 to 10 peas of most luscious flavor. A very heavy bearer never failing to produce a crop of the glant pods, Pkt. 8c.; ½ pt. 20c.; pt. 30c.; qt. 55c.

## Mammoth Sandwich Island Salsify

One of the most delicious vegetables and also one of the most nutritious. One of the most delicious vegetables and also one of the most nutritious. The flavor is very sweet and highly esteemed whether boiled with butter or other suitable sauces, or sliced and fried, or used in soup. The new variety is superseding the old type, as it produces roots nearly double the size and weight and of equally good quality. Seed sown in the spring produces large, fine roots that may remain in the ground or may be dug and stored in sand or earth in November thus keeping plump and sweet to be used as desired during the winter. Mild and delicious in flavor. Pkt. 7c.; oz. 12c.; 1/4 lb. 35c.; lb. \$1.25.

## Parsnips

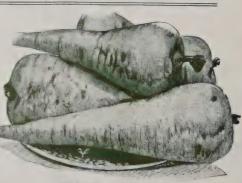

#### Improved Hall Long

This variety is an provement on the old Hollow Crown forming roots thicker and shorter than that variety and is also more easily gathered. The flesh is white, of fine texture, free from core and stringiness and of the finest flavor when cooked. This parsnip is one of the heaviest croppers and we recommend it both for garden and field culture. Pkt. 5c.; oz. 12c.; ½ lb. 30c.; lb. \$1.00. provement on the old Hol-5c.; oz. 1: lb. \$1.00.

### **Improved Stump Rooted**

A very fine new Parsnip that is short and thick being easy to dig especially in heavy soils. Boots grow 6 to 8 in long, and 3 m. thick at the shoulder. They are smooth and of attractive appearance. Flesh is very fine grained, sweet and tender. The earliest of all Parsnips, Pkt. 7c.; oz. 15c.; ½ lb. 35c.; lb. \$1.20 1b. \$1.20.

IMPROVED HALF LONG

#### Jung's Private Stock

This is a highly improved type of the Half Long, producing uniformly large and handsome roots of stocky form, heavy at the shoulders, well rounded, gradually tapering to the base so that they can be easily dug and if grown in properly pulverized soil the roots will be smooth and free from side-roots and wrinkles. The flesh is white, of fine texture, free from core and stringiness and especially fine flavored, cooking tender, sweet and rich. Pkt. 7c.; oz. 15c.; 1/4 lb. 35c.; 1/6 21.26 der, sweet lb. \$1.20.

PRIVATE STOCK

## PEPPER

### **Early Giant**

By far the largest early Pepper grown. The fruits will average as large as Ruby Giant but are ready to pick much sooner than that variety; the shape is very much like Chinese Giant. Plants grow rather dwarf and compact and are much more productive than most of the large fruited peppers, many plants bearing 12 of the immense peppers at one time.

It ripens right after Harris Earliest, which is the earliest neuron grown fruits according

It ripens right after Harris Earliest, which is the earliest pepper grown; fruits average 5 in. long by 3½ in. in diameter, of a deep glossy color turning to a bright crimson when matured. The flesh is thick, sweet and of pleasant flavor. Probably one of the most profitable varieties to grow for market. Pkt. 8c.; ½ oz. 20c.; oz. 35c.

CALIFORNIA WONDER

#### Oshkosh

EARLY GIANT

The Best Yellow Pepper very distinct and desirable large d pepper. The fruits are bright canfruited pepper. The fruits are bright canary yellow at maturity but during growth they are a deep glossy green making an attractive sort to market as "green peppers". The flavor is mild and exceptionally sweet. Fruits average 4½ in, in length by 3½ in, in diameter, broad at base and taper slightly to a blunt point; plants grow compact and are very productive. Pkt. 10c.; ½ oz. 25c.; oz. 45c.

#### Pimiento

This variety grows peppers that are of large size and is largely used for mangoes, salads and stuffing. Flesh is very thick, mild and sweet; color bright red when ripe. Pkt. 5c.; ½ oz. 20c.; oz. 35c.

#### **Long Red Cayenne**

This is the pepper so popular for seasoning and pickling. The peppers are long and slim, bright red when ripe and have a hot pungent flavor. Pkt. 5c.; 1/2 oz. 20c.; oz. 35c.

I lalways feel sure now that they will be what you represent.

OSHKOSH

#### World Beater

The very best extra large pepper, being a cross of Chinese Giant and Ruby King, having the longer form Ruby King, having the longer form and earliness of the latter with the are a hot pungent flavor. Pkt. 5c.; ½ oz. 2c.; oz. 35c.

Mrs. Hugh E. Davis, New York.—I have bought your seeds for 10 years or more and have never had a failure with them. I lalways feel sure now that they will be oz. 30c.; vz. 30c. oz. 30c.

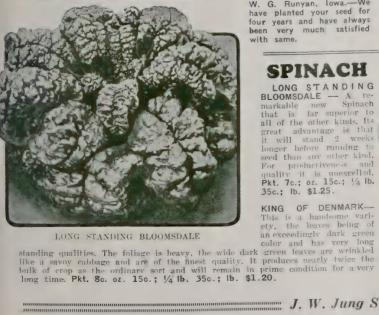

> W. G. Runyan, Iowa.-We have planted your seed for four years and have always been very much satisfied with same.

## California Wonder

A magnificent pepper resembling Chinese Giant in its large size and "blocky" form of fruits, full grown peppers will measure 4½ in. in length and 4 in. in diameter. Flesh is unusually thick, very mild and sweet. A highly profitable variety for market gardens. Pkt. 8c.; ½ oz. 20c.; oz. 35c.

WORLD BEATER

## SPINACH

LONG STANDING BLOOMSDALE — A re-markable new Spinach that is far superior to all of the other kinds. arrow the other kinds. The great advantage is that it will stand 2 weeks longer before running to seed than any other kind. For productiveness quality it is unexc quality it is unexcelled. Pkt. 7c.; oz. 15c.; 1/4 lb. 35c.; lb. \$1.25.

KING OF DENMARK

BUSH PUMPKIN

# **PUMPKINS**

#### **Bush Pumpkin**

A new type of Pumpkin that grows in a compact bush instead of long vines so delicious pie pumpkins may now be grown where space is limited. The plants form compact bushreely, are of good size and of excellent quality for pies. Pkt. 5c.; oz. 12c.; 1/4 ib.

TRUE MAMMOTH—This is a true Mammoth Pumpkin. Fruits grow to enormous size; specimens have been grown weighing 100 pounds and over. The skin is a light yellow russet color; flesh very thick, bright yellow, and fine grained, sweet and tender and of excellent quality for pies. If you wish to see just how large a pumpkin you can raise try this variety. Pkt. 7c.; oz. 15c.; 1/4 lb. 40c.; lb. \$1.50.

BIG TOM FIELD PUMPKIN—Also known as Connecticut Field. Vines are of strong, vigorous growth and wonderfully productive. Fruits will average 15 to 20 inches in diameter, round or oval in form. The skin is smooth and hard, of a reddish orange color, slightly ribbed with thick, rich orange fiesh. It is the hardiest of all pumpkins and is good for pies. This variety is grown extensively for stock feeding and is generally planted with the corn. Pkt. 5c.; oz. 10c.; 1/4 lb. 25c.; lb. 85c.

### Luxury Pie

This is the very best Pumpkin that has ever come to our attention. It is enormously productive, medium in size, being about ten inches in diameter, almost globe shaped and ripens early. The skin is finely netted and in color a beautiful golden russet, which is a sign of finest quality. The flesh is very thick, sweet and sugary and deep golden in color. An excellent keeper for winter use. If you want some delicious pies for Theaksquire development want some delicious pies for Thanksgiving day plant LUXURY PIE. Pkt. 7c.; oz. 12c.; 1/4 lb. 35c.

## SUNFLOWER

#### Mammoth Russian

Single heads measure twelve Single heads measure twelve to twenty-two inches in diameter and contain an immense quantity of seed which is highly valued by all farmers and poultry breeders who have tried it as an excellent and cheap food for fowls. They eat it greedily, fatten well on it and attain a bright, lustrous plumage and strong healthy condition better than on almost any other food. It is the on almost any other food. It is the on almost any other rood. It is the best egg producing food known. Every farmer should plant some of the seed in any waste piece of ground, any time from early spring to the middle of July. 02. 5c.; ½ bb. 20c.; Mammoth lb. 35c.; 5 lbs. \$1.35, postpaid. Ruesian 8t

## Jung's Northern Grown Potato Eyes

Many of our customers who wish to get some of our pure bred seed potatoes but do not feel like paying the freight or express charges on a small quantity can now try them out at small expense by planting our select Potato eyes. BEAUTY BUSH

# Beauty Bush

There are few shrubs that can surpass this for beauty and profusion of flowers, it is absolutely hardy, grows to a height of 6 to 8 ft., and makes a wonderful showing when in full bloom. Its trumpet-shaped flowers are deeppink and the flowers are produced in such profusion that the branches droop gracefully like a Bridal Wreath. Be sure to plant one or more of these fine shrubs. Strong 2 yr. field grown plants: Each 30c.; 3 for 75c.

AMOOR RIVER PRIVET

# New Butterfly Bush Isle de France

This wonderful new Butterfly Bush is a rare beauty with its brilliant rosy-purple flowers, also delightfully fragrapt, Grows a beautiful bush, 3 to 4 ft. tall, every branch bears a spike of flowers 9 to 12 in. long. Blooms from July until hard frosts. Strong plants that will bloom this year: Each 30c.; 3 for 75c.

# Philadelphus Virginalis

This may be classed as one of our most beautiful hardy shrubs; if you can have but one shrub let it be one of these. Grows to a beight of 4 to 5 ft., they come into full bloom in June and when in full flower resemble a huge bouquet being completely covered with clusters of large, double, pure white, sweet-seemted flowers and romain in flower for 3 to 4 weeks. Extra strong 3 yr. plants: Each 25c.; 3 for 65c.; doz. \$2.40.

#### SPECIAL NOTICE

At prices quoted on these pages we pay all delivery charges but nursery orders must amount to 50c or more.

# HARDY ORNAMENTAL SHRUBS

We offer a list of the most popular and highly desirable ornamental we offer a list of the most popular and highly desirable ornamental hrubs and vines. They are all strong 2 and 3 year old field grown plants and should not be compared to small 1 year plants that are ften offered at low prices. We guarantee them to reach you in fresh, live condition, entirely different than shrubs or plants that have stood around stores for a long time and dried out.

JAPANESE BARBERRY

## Japanese Barberry

Perfectly Hardy. Colors Wonderfully in the Fall.

One of our most desirable and useful hedge plants. They are easy to grow and are absolutely hardy and can be sheared to suit any taste. They grow very dense, are attractive deep green in summer and in the fall the foliage turns to glorious shades of yellow, crimson and gold while during the winter they are covered with hyight, red berries. This veriety does not spread rust. Strong bushy 2 yr. plants: Each 20c.; 3 for 45c.; 12 for \$1.40; 25 for \$2.65.

25 for \$2.65.

# Hardy Amoor River Privet

This is the well known hardy Privet and is well suited for planting here in the North where the California variety freezes out. They are almost like evergreens as the foliage retins its color and remains on the plants until well into the winter; also succeeds quite well in shady places. Very largely used for ledges or foundation plantings next to buildings, can be pruned or sheared to suit your fancy, the more you cut or prune it the bushier and denser it will grow. Foliage is a deep glossy green and not subject to blight. We offer strong heavy 2 yr. transplanted rlants of our own growing. 3 for 35c.; 12 fer 95c.; 50 for \$3.25; 100 for \$5.95. This is the well known hardy Privet and

GOLDEN MOCK ORANGE

# **Golden Leaved Mock Orange**

One of the Best Golden Leaved Shrubs. It not only has golden foliage but also produces a wealth of handsome, fragrant orange-like flowers in May and June. Well suited for planting singly, in groups, or for planting among other shrubs as the golden foliage adds lite and charm to the planting. Makes a beautiful bush, perfectly hardy and grows to a height of 4 to 5 ft. Each 30c.; 3 for 75c.

FERN LEAVED SPIREA

# Fern Leaved Spirea

A handsome and vigorous shrub that should be included in every planting. It has foliage like a fern or Mountain Ash and produces large spikes of pure white flowers similar to a Hydrangea during July and August. Very fine for planting with other shrubs as the fern-like foliage shows up splendid. Each 25c.; 3 for 65c.; doz. \$2.50.

L. C. Sorenson, Wis.—All your shrubs and seeds we ordered grew lovely.

BUSH BITTERSWEET

# Rosy Plume Spirea

A beautiful hardy shrub, grows 4 to 5 ft. tall and blooms very profusely. The tip of each branch bears a plume of rosy pink flowers. The flowers are also fine for cutting. A very useful shrub for planting singly, in groups with other shrubs or also as a hedge. Strong 2 yr. plants: Each 20c.; 3 for 50c.; 12 for \$1.65.

GOLDEN WIEGELA

# Giant Bridal Wreath

The finest of all Spireas. A splendid hardy, rapid growing shrub, 4 to 6 ft. tall when matured and even greater in diameter. It forms a large dome shaped bush which in blooming season is covered with long gracefully drooping garlands of snowy white flowers which are delightfully fragrant. A very hardy attractive shrub that is sure to please. Each 25c.; 3 for 55c.

H. E. Buzby, Fairbanks, Alaska—The plants arrived in fine shape and thanks a lot. I have never been disappointed in any seed, bulbs, or shrubs from your house.

### Tamarix

HISPIDA—This is the hardiest and best variety. Will grow 8 to 10 ft, tall but can be trimmed to a lower height if desired. Foliage is dense and feathery, silvery-blue in color very much like silver spruce. Bright pink flowers are, borne over a long period of time. Grows in sun or shade and in wet or dry places. Strong 18-24 in. plants: 25c each; 3 for 60c.

#### **Bush Bittersweet**

A beautiful hardy shrub which will grow 6 to 8 ft. tall. In spring it is covered with a mass of bright yellow flowers, followed by brilliant rose colored berries (like bittersweet) which remain on the plants until mid-winter. Leaves color up beautifully in the fall. Strong 2 yr. plants: Each 30c.; 3 for 75c.

ROSY PLUME SPIREA

# Golden Wiegela

A dwarf and very useful shrub which grows 3 to 4 ft. tall. The leaves are margined creamy white and are splendid for planting among other shrubs or used as specimen plants around the house or lawn. Flowers rose colored and produced in greatest profusion. A shrub of rare beauty from early spring until late fall; sure to please, Each 25c.; 3 for 60c.; 12 for \$2.25.

Carl J. Johnson, Minn.— Received shrubs from you last year and was well pleased.

TAMARIY

CHINA ROSE TREE

#### China Rose Tree

A very hardy, handsome ornamental tree that grows to a height of 6 to 8 ft., and is ideal for planting on a lawn as a specimen or in the rear of a shrub planting. It bears a wealth of double delicate pink flowers very much like roses. Comes into bloom very early even before the leaves appear. Strong 2 to 3 ft. trees: Each 45c.; 3 for \$1.25.

For other Fine Roses see Inside Back Cover.

ENGELSMAN'S IVY

CLEMATIS

- 38 -J. W. Jung Seed Co., Randolph, Wis.

# "Hugonis" or Golden Rose of China

A wonderful new rose from China that is perfectly hardy and very showy even when not in blossom as the foliage is very fine or fernlike, deep green and very glossy. Very useful for planting with other shrubs or for show plants when planted singly. The bushes grow 4 to 5 ft. tall and when in full bloom are a mound of glistening gold, the branches drooping gracefully with a mass of blossoms. The long densely flowered branches may be cut for table bouquets without detriment to the bushes as the new growth produces the flowers. Strong 2 yr. plants: Each 25c.; 3 for 65c.; doz. \$2.25.

# Dwarf Rambler Rose "F. G. Grootendorst

A cross between Rugosa and Baby Rambler that blooms A cross between Rugosa and Baby Rambler that blooms profusely from early summer until fall. It forms a stocky bush, 2 to 3 ft. tall on which the biossoms are borne in clusters resembling bouquets of red carnations. Flowers are bright red and very fragrant. The finest rose for a hedge or massing with other shrubs as it is both hardy and everblooming. Select Plants: Each 35c.; 3 for 95c.;

GROOTENDORST

# **Hardy Rugosa Roses**

These roses are very hardy and can be grown in any part of the U. S. They were produced by crossing the hardy Rugosa Rose with some of the best double everblooming varieties. They have perfectly double flowers, bloom at frequent intervals throughout the season and are highly fragrant. They are absolutely bardy and are not susceptible to many diseases and insects that attack other roses. Once planted they are permanent, about all they require is to keep the soil worked around the bushes and occasionally a little well rotted manure well spaded in. They grow dense heavy bushes, 3 to 5 ft. tall and are well supplied with heavy shiny foliage.

SIR THOMAS LIPTON—A pure white Rugosa Rose, flowers are very double and borne in profusion throughout the season. A beautiful fragrant rose. Strong 2 yr. plants: Each 30c.; 3 for 75c.

HARRISON'S YELLOW—One of the hardiest yellow Roses. When in full bloom the plant is simply a mass of gold, Foliage is fern-like and very attractive. Strong 2 yr. plants: Each 30c.; 3 for 75c.

BELLE POITEVIN—Grows a strong, vigorous bush and branches freely, every tip laden with large double flowers of a live, clear pink color. Buds are long and have an exquisite perfume. Strong Plants: Each 30c.; 3 for 75c.

HANSA—One of the finest of the hardy Rugosa Roses, growing a strong healthy bush that bears the large handsome flowers in great profusion. Flowers are large, very full and double and a rich maroon red in color. A bush of these roses is a grand sight when in bud or bloom. Strong Plants: Each 30c.; 3 for 75c.

Albert Potvin, R. I .- The Golden Rose of China purchased from you several years ago, is the finest flowering shrub in the world, it improves with age and is very hardy.

Mrs. P. O'Conner, Mont .-- I bought your Rose Collection last year and every one lived. Thanks for your strong plants and good instructions.

# Special Offer No. 14

One Strong 2 Year Field Grown Plant of each of these 7 Fine Roses and 1 White Glory Spirea for \$1.85 Postpaid

RED DOROTHY PERKINS

# Climbing Rose **Red Dorothy Perkins**

JUNG'S RAPID RED

PERFECTION EXTRA EARLY

WHITE DELICIOUS EX. EARLY

Do Not Overlook Premiums. See Pages 16 and 49.

CRIMSON GIANT GLOBE

# Jung's Select Radishes

We take much pride in our select stocks of Radish seed. It is grown from carefully selected roots and will produce Radishes of mild flavor and with less leaves than the seed usually offered.

JUNGS RAPID RED—This we find to be the quickest maturing of them all, Radishes having been grown in the short period of 18 days. Its attractive color and small tops make it especially desirable for forcing. The flesh is pure white, very crisp and tender, If you want to be the first on the market with Radishes that will command fancy prices then plant "JUNG'S RAPID RED". Pkt. 7c.; oz. 12c.; 1/4 lb.

PERFECTION EXTRA EARLY—The most attractive white-tipped Radish. This variety is bound to become the most popular of the white-tipped varieties as it combines handpopular of the white-tipped varieties as it combines hand-some appearance, quality and extreme earliness. The white tips extend nearly half way up the roots and the brilliant color of the top shows up in strong contrast. For quality it is unexcelled as it is very crisp, tender and sweet. One of the best varieties to grow for market as well as for the home garden. Pkt. 5c.; oz. 10c.; 1/4 lb. 25c.

EXTRA EARLY FIREBALL-A fine bright red radish of quick growth, especially fine for bunching; often ready for market in 20 days. The radishes are globe shaped, deep red and have but few leaves. Flesh white, firm and crisp and of mild flavor. Free from hollow and pithy center. Pkt. 7c.; oz. 15c.; 1/4 lb. 35c.

FRENCH BREAKFAST—An early medium sized radish, olive shaped, very crisp and tender; of a beautiful bright, scarlet color tipped with white. It grows about 2 inches long and is decidedly stump rooted. A splendid variety for the table for its excellent quality and the beautiful color are unexcelled. It is a quick growing and exceedingly popular variety. Pkt. 5c.; oz. 10c.; 1/4 lb. 25c.

EXTRA EARLY WHITE DELICIOUS—A splendid new olive-shaped radish, pure white in color. Very early as it has produced radishes fit for pulling in 18 days after sowing the seed. It has a small top, is solid and crisp, of fine flavor, in fact, a first-class radish in every respect. Size and shape are ideal. Pkt. 7c.; oz. 15c.; 1/4 lb. 35c.

To have a continuous supply of the finest Radishes plant the following: EARLY HAILSTONE JUNG'S RAPID RED PERFECTION EARLY WHITE ICICLE CRIMSON GIANT GLOBE
1 PKT. OF EACH FOR 25c
1 OZ. OF EACH FOR 50c

WOOD'S EARLY FRAME—This is one of the earliest long varieties. It is of a beautiful scarlet color, shading to white towards the tip. It is always juicy, tender, delicious and free from pith and sharpness so otten found in long Radishes, Very much used for growing under glas, Von will be delighted with this variety, Pkt. 5c.; oz. 10c.; 1/4 lb, 25c.

O. E. Langlois, Wis.-We never had such good luck with any seeds as we did with yours. Every seed grows when you get 'em at Jung's.

# Crimson Giant Globe

This new variety is suitable for both forcing and growing outdoors. It is a fine shaped bright red Radish, growing quickly to large size (see illus-tration). The Radish is a deep globe in shape and 1½ inches in diameter. Skin is thin and tender and of a deep crimson color, The flesh is pure white, crisp and of mild flavor. The roots are entirely free from hollow centers and pithy fibre. Pkt. 7c.; oz. 12c.; 1/4 lb. 30c.

WOOD'S EARLY FRAME

EXTRA EARLY FIREBALL

FRENCH BREAKFAST

SELECT WHITE ICICLE

# Select Early White Icicle

Larly White Icicle
Long, slender, crisp, tender,
mild and of purest white. Unexcelled as a money maker. It
produces slender, pure white
Radishes very early in the season, much earlier and finer in
quality than any other long
white variety. The shape is well
shown in the illustration. The
leaves are short and few, making it an excellent variety for
forcing. It is of the best flavor
and very briftle and crisp. The
roots grow about 4 inches long
and are ready for use in about
25 days after sowing. Pkt. 7c.;
oz. 12c.; 1/4 lb. 30c.; lb. 85c.

EARLY HAILSTONE

# RADISHES

# Early Hailstone Radish

The earliest and quickest growing WHITE RADISH in cultivation. It is ready for use from 15 to 18 days atter sowing. The radishes are regular shaped, measuring one inch in diameter and about half an inch in depth. Flesh is solid, crisp and of mild flavor. The foliage is unusually small. Pkt. 5c.; oz. 10c.; 1/4 lb. 25c.

#### "What Our Customer Say"

J. W. Davis, New York.—Have for many years purchased my seeds from you, have always found them satisfactory and first class quality and can highly recommend them.

Alva Tresidder, Mich.— For 5 years have planted your seeds, they cannot be beat.

H. Clyde Hoover, Ohio.— We like good vegetables, that is why we plant JUNG'S seeds year after year.

CHINA ROSE WINTER

### Chinese Rose Winter Radish

This is a large and fine shaped Radish, crowing partly above the ground. It is of a nalf long shape with a blunt point; rose colored skin, flesh pure white, solid as an apple. It has not the strong flavor of the Black Spanish and keeps equally as well. Pkt. 5c.; oz. 10c.; ½/4 lb. 35c.

STRAIGHTNECK

# SQUASH

MAMMOTH WHITE BUSH—An early maturing bush summer squash which will bear throughout the season if kept picked. Squashes are pure white and of large size, Flesh is thick and of very fine quality. Pkt. 5c.; oz. 10c.; 1/4 lb. 30c.

GOLDEN HUBBARD—An elegant Winter Squash. Flesh a deep golden yellow, much richer in color than Hubbard; fine grained, cooks very dry and is of excellent flavor. In keeping quality it has no superior. Its productiveness, combined with its sweet rich flavor, attractive color and shape, are bound to make it a popular fall and winter variety. Golden Hubbard is a sport from the well known Hubbard which it closely resembles in every respect except in color, which is a bright, golden yellow. Pkt. 5c.; oz. 10c.; 1/4 lb. 25c.

GIANT STRAIGHTNECK—A new highly desirable summer squash that is replacing the older crookneck type. It is easier to pick, will yield just as heavily and is of the same appearance as Giant Crookneck, the neck is heavier and gives more edible squash and is easier to prepare for the table. Pkt. 5c.; oz. 10c.; 1/4 lb. 25c.

NEW DELICIOUS—For table quality there is no other Squash that can be compared with Delicious in sweetness and richness of flavor. Excellent for Fall as well as for Winter use, keeping until late in the Spring. Fruits are of medium size, weighing from 5 to 10 pounds. The rind is dark green mottled in lighter shades. The flesh is dark orange, very fine grained and thick. Pkt. 5c.; oz. 12c.; 1/4 lb. 35c.

NEW DELICIOUS

Protect your Squash plants by using Hitox Spray. See page 1.

COCOZELLE

COCOZELLE—The most delicate and finest flavored Summer squash. Of compact bush growth, the vines yield heavily of fruit averaging 14 inches long and 5 inches in diameter, dark green in color with the the yellow and green stripings. Used when 10 inches long and perfectly green. Pkt. 5c.; oz. 10c.; 1/4 lb. 25c.

# "BUTTERCUP" The Quality Squash

Superb Quality. Excellent Keeper. Heavy Yielder.

A splendid winter squash developed by Prof. Yaeger of the No. Dak. Exp. Station. The squashes weigh 3 to 5 lbs., are dark green in color, mature early, and are excellent keepers. Flesh is very thick, deep orange in color, very sweet and entirely free from fibre of any kind. The highest Quality winter Squash. Pkt. 8c.; oz. 15c.; 1/4 lb. 40c.

Do Not Overlook the fine Premiums that are free to Jung's Customers. See Pages 16 and 49.

BUTTERCUP

# THREE SPLENDID SQUASH

TABLE QUEEN—A squash that will suit the most exacting taste. Unexcelled for either baking or pies. If you want something in extra fine "eats" cut one of the squash in half, put in a lump of butter and bake; this serves one amply. It ripens early, will keep all winter and is so productive that a few hills produces enough for an average family. Pkt. 7c.; oz. 12c.; 1/4 lb. 35c.

IMPROVED HUBBARD—This is a superior selection of this famous variety and one of the best winter Squashes; flesh bright orange yellow; fine gramed, very dry, sweet and rich flavored; keeps perfectly throughout the winter; boils or bakes exceedingly dry and is esteemed by many to be as good baked as a sweet potato. Our stock is most carefully selected with regard to quality of the flesh and color and wartiness of the shell but the latter peculiarities are largely determined by the soils in which the Squashes are raised. Our customers can plant this variety in perfect confidence that every fruit will be a pure Hubbard. Pkt. 8c.; oz. 15c.; ½ lb. 35c.

The Great Banana Squash

This squash is better shown in the illustration than we can describe it. It keeps equal to Hubbard, is even better quality, more prolific and earlier in ripening. The color is grayish green, shell soft so that it can be cut with a knife. It grows from 18 to 30 inches long, and 6 to 8 inches in diameter. It is very prolific and a shy seeder which accounts for the high price of seed. Flesh is of deep orange color, entirely free from fibre or stringiness. Cooks up perfectly smooth and of the most delicious flavor. Pkt. 8c.; oz. 15c.; ¼ 1b. 40c.

TABLE QUEEN

PERFECT MODEL

Sanford Branson, Linton, Ind.— Your seeds were all true to name and all grew fine.

GOLDEN BALL

# **RUTA BAGAS**

IMPROVED PURPLE TOP YELLOW—A hardy and productive variety, widely grown for market and stock feeding. It is of fine quality and keeps perfectly all winter and even into the following summer. Bulbs are large, smooth, round and solid with a small tap root. Flesh richly colored, fine grained and very sweet. It is justly held in high esteem for both table and stock feeding purposes. The shape is well pictured in the illustration. Pkt. 5c.; oz. 10c.; 1/4 lb. 20c.; lb. 70c.

PERFECT MODEL—This grand variety is a highly improved Ruta Baga and is giving satisfaction wherever grown. It is of fine quality and keeps perfectly all winter. A heavy yielder, flesh deep orange colored, sweet and fine grained, excellent for table use. It is globe shaped, yellow skin with purple top and very short neck. An excellent variety to grow for market as they present such a handsome appearance that they sell readily. Pkt. 5c.; oz. 10c.; 1/4 lb. 25c.; lb. 80o.

# TURNIPS

GOLDEN BALL—Of the yellow or golden fleshed turnips this is the best variety. Roots grow quickly to good size, are smooth and very fine in appearance. Flesh is a rich yellow color, tender and mild in flavor; in fact, we consider it the best turnip for table use. Pkt. 7c.; oz. 15c.; 1/4 lb. 35c.; lb. \$1.10.

EXTRA EARLY WHITE MILAN—A very valuable sort largely used by market gardeners for first or extra carly use. The quickest growing variety and under favorable conditions is fit for use in a few weeks after sowing. The roots are of medium size, of pure white color and very handsome appearance. Flesh is fine grained, sweet and of mild flavor. A splendid variety for both the home and market garden. Pkt. 7c.; oz. 15c.; 1/4 lb. 35c.; lb. \$1.00.

PURPLE TOP WHTE GLOBE—This grows very quickly to large size; roots even and regular in form and of most handsome appearance. The bulbs will measure six inches and more in diameter, being of perfect globe form; the upper portion is of rich purplish red and the lower half creamy white. Flesh white, firm and crisp, of mild flavor. It is an excellent keeper and being so productive is one of the best to grow for stock feeding. The plants being of such large, strong growth should be thinned more severely than with small early sorts. This variety is very extensively used for market growing. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.; lb. 85c.

EARLY WHITE MILAN

# Jung's

# Northern Grown Tomato Seed

# Jung's Private Stock "John Baer"

This is a widely grown and very popular early Tomato. First fruits ripen This is a widely grown and very popular early Tomato. First fruits ripen early and it continues to bear for a long time. Plants are vigorous growers and bear the large, smooth red fruits in great quantities. It has always been a great favorite with our customers. Market gardeners, with whom earliness is a great factor will find that our northern grown seed will produce a crop that will ripen earlier, produce a larger crop and more solid fruit, than seed grown further south. Plant JUNGS JOHN BAER once and you will not be without it again. Price of seed of our own growing: Pkt. 8c.; 1/2 oz. 25c.; oz. 40c.; lb. \$4.75, postpaid.

### Super Select John Baer

For gardeners who want something extra special we offer seed of this fine tomato that was saved from a few extra choice plants. This seed is only from the earliest or crown-set fruits. Sure to please Pkt. 15c.; 1/2 02.65c.; oz. \$1.00; 1/4 lb. \$3.00.

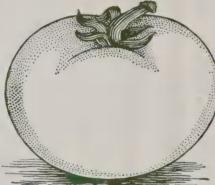

#### White Wonder

A wonderful tomato which has creamy-white skin and flesh. The fruit is free of the usual acids and can therefore be enjoyed by persons who cannot eat red tomatoes on account of the acids they contain. The fruits are very firm and when cut open show a firm flesh. As a tomato for slicing or salads, it is unsurpassed. Be the first one to grow this new tomato and surprise your neighbors. We offer you choice seed of our own growing. Pkt. 8c.; 3 pkts. 20c.

H. A. Varland, No. Dak.—Grew your Super Select John Baer Tomatoes and I have never grown their equal.

OXHEART

WHITE WONDER

# Early Oxheart

We have spent years in developing this extra early strain of the famous Oxheart tomato. It grows a very compact plant and ripens two to three weeks earlier. The fruits are of good size and tine quality. It will produce an even heavier crop than the regular Oxheart. Pkt. 8c.; ½ oz. 35c.; oz 60c.

# **Earliest Tomatoes**

We take special pride in our We take special pride in our tomato seed and are sure that it is unexcelled for quality. It is northern grown and will produce a crop theit will ripen earlier, produce solider fruit and healthier plants than seed grown further south. It is folly to use cheap tomato seed for it takes only a few ounces to plant an acre.

JOHN BAER

#### Hundredfold

remarkably fine tomato that will be sure to surprise for quality, yield and fine, smooth fruit; it comes to ripen very early and will keep on bearing until frost. Fruits will average good size and are borne in clusters, often 12 to 15 in a bunch, color bright red, fruits are always smooth and of the finest flavor; as it is globe shaped it is splendid for slicing. As it is so productive a dozen plants will supply fruit for an ordinary family. Choicest seed of our own growing: Pkt. 7c.; ½ oz. 20c.; oz. 35.c; ¼ lb. \$1.25.

# Disease Resistant Tomato "Marglobe or Coreless"

LARGE SIZE. GLOBE SHAPED.
BRIGHT RED.
We consider this the most ideal
main-crop tomato as it is wilt-resistant and produces a larger crop of
large smooth fruits than any other large smooth fruits than any other variety. Marglobe is a beautiful scarlet. globe-shaped tomato, fruits are very smooth, free from core and offeren weigh one pound each. We offer extra select seed of our own growing. Pkt. 8c.; ½ oz. 25c.; oz. 40c.; ½ lb \$1.25 1/4 lb. \$1.25.

# Super Select "Marglobe or Coreless"

This seed has been saved only from the first or crown-set fruits. The plants were especially selected for producing large early ripening tomatoes. Pkt. 15c.; ½ oz. 65c.; oz. \$1.00; ½ lb. \$3.00.

MARGLOBE or CORELESS

CLIMBING TOMATO

# Jung's Giant Climbing

Enough tomatoes for an average family can be grown from a small space by planting this vigorous tomato and supporting the plants on stakes or a trellis. Vines will grow 6 to 8 ft. tall and bear tremendously. Fruits are very large in size, smooth, solid, deep red in color and ripen me evenly to the stem May smooth, solid, deep red in color and ripen up evenly to the stem. May also be grown like ordinary varieties but be sure to give the plants plenty of room. Select seed of our own growing: Pkt. 10c.; ½ oz. 25c.; oz. 45c.

# Hardy Ferns

Hardy native ferns are gaining wide popularity as their value is becoming better known. They are easily grown and are especially adapted for shady places where other plants or shrubs do not succeed. Our plants are grown bose in the North and are do not succeed. Our plants are grown here in the North and are sure to be hardy anywhere in the U. S. Full cultural instructions sent with each order Extra Large Plants: 3 for 50.; 6 for 90c.; doz. \$1.50, post-poid.

HARDY FERNS

## TRUCKER'S FAVORITE

# Trucker's Favorite

Very uniform in shape and size; thick, heavy and solid; one of the largest tomatoes grown. The the largest tomatoes grown. The fruits are of a purplish red or pink color, always smooth and fleshy. They hold their size to the very last picking and ripen well to the stem. The vines are not subject to blight or rust and produce enormous crops until killed by frost. Delightful in quality and flavor and unexcelled for slicing or cooking. As a dependable ing or cooking. As a dependable main crop Tomato Trucker's Fa. vorite can not be beat. Pkt. 7c.; 1/2 oz. 20c.; oz. 30c.; 1/4 lb. \$1.10.

# Giant Everbearing

A wonderful tomato that commences to ripen early and continues to bear throughout the season, the later fruit is just as perfect as the first. It has been tried out in all parts of the U. S., and on different soils and always proved successful. The plants make strong vines that produce surprisingly large number of fine tomatoes from each plant. The fruits are large, solid and smooth, free from cracks and ripen up evenly to the stem. Fruits are a bright glossy red, flesh is solid, contain few seeds and are of exceptionally fine flavor. Choice seed of our own growing: Pkt. 7c.; ½ 0z. 20c.; oz. 35c.; ¼ lb. \$1.25. A wonderful tomato that com-

Mrs. Palul Foutz, N. Car.— Sure had a fine garden from your seeds, like the Truckers Favorite Toma-to, my neighbors bought them as fast as they ripened.

# Jung's Select Flower Seed

YELLOW CHRYSANTHEMUM

# Baby Golden Glow

A most charming annual growing about A most charming annual growing about 15 to 18 inches bigh, bearing scores of bright yellow flowers. Seeds should be started indoors; the plants will begin to bloom almost as soon as set in the open ground, affording an unlimited supply of cut flowers. One of the best bedders, Likened to Golden Glow on account of color, shape and profusion. Pkt. 7c.; 2 pkts. 10c.

Mrs. C. Miller, Wis .-- Planted packet of your Asters last year and they were beautiful. Received first prize at our Fair.

The same care and time used in grow-The same care and time used in growing our garden seeds also enters into the production of our flower seeds. They are grown from the most select stocks, carefully tested for germination, in fact you will find Jung's Flower Seeds to be equal to the best offered anywhere. With every order of 25c or more we send mooklet on growing flowers free.

# **Cur Giant Flowered Aster** "Betty Jung"

This new Aster outrivals anything we have seen yet in Asters and we have been growing and improving them for 24 years. The plants are very vigorous growers and instead of producing a large number of lateral stems the entire strength seem to go toward producing from 6 to 10 long main stems, each of which is crowned with one of the mammoth flowers. The flowstems, each of which is crowned with one of the mammoth flowers. The flowers are giant in size, very full and double and of very lasting quality; the type of flower is well shown in the illustration. White. Bright Rose, Shellpink, Deep Purple and Mixed. Pkt. 15c.; 1/4 oz. 40c. Pkt. of each color for 35c.

# Yellow Chrysanthemum

The rarest and newest Aster, being a deicate canary yellow, a new color that will be welcomed by every Aster lover. The flowers are of good size, remarkably full and double with centers well covered. Flowers are produced so numerous that a plant looks like n golden dome. Pkt. 10c.; 3 pkts. 25c.

### Jung's Scarlet Gem

The most attractive of all Asters, being a brilliant red. The flowers are large and full and are borne on a tall robust plant. Most effective for either beds or bouquees as their bright color makes them shown on matter where they may be placed. We know all of our customers will be delighted with it. Pkt. Sc.; 1/4 oz. 50c.

BABY GOLDEN GLOW

# Ageratum

DWARF BLUE PERFECTION—One of our best summer blooming plants. They are rapid growers and bloom from early summer until hard frosts. Even in hot dry summer the beautiful, bright blue flowes are produced in abundance. Especially valuable for beds, borders and window boxes, the plants being of dwarf, compact growth, 9 to 12 in tall. Pkt. 8c.; 2 pkts. 15c.; ½ oz. 20c.

# **Butterfly Plant**

GIANT FLOWERED MIXED — Wonderful showy plants having leaves like fern and blossoms like an orchid. The plants grow 1½ to 2 ft. tall and are literally covered with the exquisite butterfly like blossoms of almost every known shade and color. These flowers are of lasting substance and a plant in bloom makes a truly beautiful sight. They are easy to grow in the garden and will also make beautiful pot plants for winter flowering. Pkt. 10c.; 3 pkts. 20c.

BETTY JUNG ASTER

WILT RESISTANT ASTER

## Wilt Resistant Asters

This fine strain of Asters is resistant to wilt (not yellows) and is resistant to wilt (not yellows) and if you could not succeed with the ordinary Asters you can grow them by using the resistant strain. The seed we offer is a superb mixture of large flowering varieties such as Giant Branching, Ruffled Giants and American Beauty. A full range of all desirable colors. Pkt. 8c.; 3 pkts. 20c.: ½ ag. 35c. 20c.; 1/4 oz. 35c.

BUTTERFLY PLANT

#### Balsam

DEFIANCE MIXED—A favorite quick growing annual. The plants form symmetrical, well branched erect bushes about two feet high. The branches are well covered with beautiful double flowers. The colors include white, rose scarlet, crimson, purple, lilac and violet. This variety is distinctly Camelia flowered. Our strain of these is unsurpassed for size of blooms, doubleness and beauty of flowers. Pkt. 7c.; 2 pkts. 10c.; 1/8 oz.

#### Scarlet Runner Bean

One of our fastest growing annual vines. Bears large clusters of showy bright scarlet flowers. Pods are tender when young and may be used like any pole bean. Both useful and ornamental. Large Pkt. 7c.; oz. 15c.

SCARLET RUNNER BEAN

BABY'S BREATH

Mrs. C. G. Burson, Col .- Have used your seeds for a good many and like everything so

FANCY MIXED CANDYTUFT

COCKSCOMB

# Baby's Breath or Gypsophila

GIANT PARIS MARKET—These hardy annuals produce feathery sprays of tiny, pure white, star-like flowers that are highly esteemed for cut flowers as they lend a most graceful effect when combined in bouquets of Asters, Sweet Peas or other flowers. Successive plantings should be made if you wish a supply throughout the season. Pkt. 5c.; 1/4 oz. 15c.

#### Blue Lace Flower

A beautiful and interesting annual which seems to have been lost sight of in the last few years It blooms most profusely from July till November, plants grow about 18 in, high and have as many as 50 flowers open at one time, color an exquisite pale lavender. Pkt. 7c.; 3 pkts. 20c.

LITTLE PRINCE

# Candytuft

Cunditute

Candytuft, the plant growing only about six inches high and bears immense spikes of snow-white flowers in great abundance, remaining in perfection longer than any other annual strain. Pkt. 7c.; 2 pkts, 10c.; ½8 oz. 20c.

FANCY MIXED—These Candytufts are of fine habit and very profuse bloomers. They come into bloom soon after sowing and remain in flower for a long time. May be sown in solid beds or used for edging or borders. Also very useful for cutting. Pkt. 7c.; 2 pkts. 10c.; ½8 oz. 15c.

### Cardinal Climber

One of the most beautiful climbing annuals we know of and should be grown by every lover of vines or climbers. The foliage is like a palm leaf, rich, glossy green, with fringed edges against which the brilliant scarlet flowers, about one inch across, show off beautifully. In a warm sunny location and rich soil it grows about 20 feet in height. It is of rapid growth, free from insects and a beautiful vine for porches or trellises. Pkt. 8c.; 3 pkts. 20c.

#### Carnations

GIANT MARGUERITE—These lovely fragrant Carnations produce fine double flowers. The flowers of this wonderful strain often measure three inches across and have a variety of colors including white, blush, deep pink, salmon, scarlet, maroon, and many variegated flowers. Most of them have lovely fringed petals. The great merit of these Carnations is that they begin to flower in about 13 weeks time from seed sown in the spring. Pkt. 8c.; 3 pkts. 20c. 20c.

## Cockscomb

GIANT PRIZE MIXED-Wonderfully showy annuals producing crimson and vellow flowers or combs of immense size. Very easy to grow. Cut when partially open and dry in shady place and they make excellent winter bouquets. Pkt. Sc.; 2 pkts. 15c.; 1/8 oz. 25c.

BLUE LACE FLOWER

Mrs. Leo F. Miller, Pa. — All who see my fine garden are told the seeds are JUNG'S, your seed is true to name and m customer can depend on it.

CARDINAL CLIMBER

CARNATIONS

DAHLIAS

## Dahlias

JUNG'S FANCY MIXED—The Dahlia still holds its place as "king" of all outdoor autumn flowers and they may be grown to the greatest perfection from seed blooming the first summer. As easy to grow from the seed as the most commun plant. Anyone can have a magnificent display of these regal beauties at very small cost. Continue to bloom profusely until severe frosts when the bulbs can be taken up and stored until spring. A superb mixture of the finest varietes. Pkt. 10c.; 3 pkts. 20c.

CROZY'S HYBRIDS-Very showy bedding plants with their tropical foliage and immense flowers borne on stalks three to seven feet high in all brilliant colors. Cannas are easily grown from seed. For best results pierce the seed and soak in warm water, then sow in a warm place or hotbed. Seeds sown in March or April produce a brilliant bed by July, Pkt. 8c.; 3 pkts. 20c.

#### Castor Oil Bean

Our fastest growing ornamental plant, very useful tor backgrounds or the center of a large flower bed. They are very ornamental as the large broad leaves are glossy green or bronze in color, palm shaped and give a tropical appearance. Large Pkt. 7c.; oz. 20c.

CASTOR OIL BEAN

# Cosmos

GIANT EARLY FLOWERING MIXED—Grace and brilliancy are the characteristics of this pretty annual. The beautiful flowers with their deep broad petals rise from a cloud of fine feathery foliage. They are of compact, bushy growth about four feet high with flowers fully as large as the old variety. Flowers are of many shades. Pkt. 5c.; 1/8 oz. 15c.

GIANT FANCY MIXED-For rare gracefulness and beauty few annuals will surpass Clarkias, suitable for either the border or bouquets. They grow erect to a height of 2 ft. and the branches for their entire length are covered with double flowers resembling carnations or rosettes. Pkt. 7c.; 1/8 oz. 15c.

GERANIUMS

# Garden Pinks

FAIRFIELD FINEST MIXED—These hardy annuals may be ranked among the fairest gems of our flowers as few can equal them in beauty or profusion of blooms. They are of the richest and most varied colors. The plants spread rapidly and make ornamental masses of growth. They may be sown in the open ground when danger from frost is over and in a few weeks they are masses of bloom continuing so until frost. Our mixture includes the best single and double sorts. Pkt. 7c.; 2 pkts. 10c.; ½ 8 oz. 20c.

#### Hollyhocks

EVERBLOOMING ANNUAL MIXED—This old but favorite flower may now be had in flower the first season. The diversity of form and color of our selection will afford you many surprises. Some plants will produce dense, double flowers, others will be semi-double while some are single with double centers. The flowers are unusually large, some measuring 5 inches across. In colors there is also a great variety, ranging from black, maroon, crimson, rose, pink to white, Pkt. 7c.

CANNAS

CLARKIA

FOUR O'CLOCK

### Four O'Clock

FINEST MIXED—No flower makes a prettier border than the old-fashioned Four O'Clock. Plant grows to a height of two feet and blooms in early morning and evening and rival the choicest garden flowers in color. It is one of the most brilliant and showy plants that can be grown with little or no trouble. Pkt. 5c.; 1/4 oz. 10c.

GARDEN PINKS

JAPANESE KUDZU VINE

# Japanese Kudzu Vine

One of the fastest climbers having beautiful flowers like a wisteria but larger in size and with better clusters. The foliage is very luxuriant and where quick shade is wanted this plant will prove of great value as it seems to thrive everywhere. It is perfectly hardy and will increase in size and beauty year after year. Pkt. 8c.; 2 pkts. 15c.

Jos. Schnellman, St. Minn..— We always the best luck with your seeds.

MIGNONETTE

#### Lavatera

ROSY MORN — These handsome flowers should be grown by every flower lover. Plants grow 2 ft. in height and produce a mass of charming rose-pink flowers. Very useful for showy beds or borders and as the flowers are borne on long stems they are very useful for vases and bouquets. It is easy to grow and sure to please. Pkt. 5c.; 1/8 oz. 15c.

LAVATERA

# Everblooming Wonder Lily

A wonderful new hardy Lily that will bloom from seed the first year if started early. Flowers very much resemble Easter Lilies, being pure white inside, slightly tinged deep rose on the outside. They grow 3 to 4 ft. tall and offen produce 10 to 15 flowers on a stem. Will increase in size and beauty from year to year. Pkt. 10c.; 3 pkts. 25c. 2 yr. Blooming Size Bulbs: Each 25c.; 3 for 60c.; doz. \$1.90.

## Nicotiana

SANDERAE HYBRIDS—These flower from early summer until late in autumn. Their beauty is beyond description, flowers being purple, dark red, snowwhite, violet, salmon, pink, crimson, and various other shades. It is a very easily cultivated plant, thrives well in any soil, either in pots or in the open ground. The cut blooms last well, opening freely in water. All colors mixed. Pkt. 7c.; 2 pkts. 10c.

# Love-in-the-Mist

NIGELLA—A lovely free flowering annual suitable for either beds, borders or bouquets. It grows to a height of 12 to 15 in., foliage is fine and dainty and blooms very profusely. The dainty blue flowers are borne on long stems, splendid for either beds or cutting. An anusually fine bed of flowers may be had by sowing these and California Poppies in the same bed. Pkt. 5c.; 1/4 oz. 15c.

# Mignonette

BISMARK—One of the grandest mignonettes ever introduced. It is remarkable for size, color, fragrance and profusion of blooms. Flower spikes are of giant size, measuring 6 to 8 in. long and fiery red in color. Very showy as the bright flowers contrast effectively against the deep green foliage. Pkt. 8c.; 2 pkts. 15c.

FINEST MIXED—A fine mixture, grows rapidly and produces fine spikes of blossoms during the cool weather of spring and fall. Make a second sowing in August to furnish fall flowers. Pkt. 5c.; 3 pkts. 10c.; ½ oz. 15c.

# Morning Glories

GIANT JAPANESE MIXED-The robust vines attain a height GIANT JAPANESE MIKED—The robust vines aftain a height of from 15 to 20 feet. Their charm lies in the entrancing beauty and large size of the flowers; they measure from 3 to 4 inches across. Some flowers are of deep, rich, velvety colors, others daintily tinted and shaded. There are reds from soft rose to crimson and garnet; daintiest blue to purple; snow-white to silver gray. They are easy to grow and quick to come into bloom. Pkt. 5c.; 1/4 oz. 15c.

MOLTEN FIRE

### Molten Fire

TRICOLOR-A wonderfully fine orna-TRICOLOR—A wonderfully fine orna-mental plant that is sure to attract at-tention wherever grown on account of its brilliant color. Plants grow rapidly and have bronze colored folinge until the plants attain a height of about 2 ft. when the tips of the branches open up like gi-gantic poinsettias taking on a bright scar-let and gold color. Pkt. 10c.; 3 pkts.

C. F. Eastabrooks, Mo. —I raised some of your Wonder Lilies from seed. They sure are beautiful.

JAPANESE MORNING GLORY

# Climbing Nasturtiums

JUNG'S GIANT CLIMBING-This mixture is absolutely unsur-JUNGS GIANT CLIMBING—This mixture is absolutely insurpassed. Nothing can excel the wealth, richness and variety of these Nasturtiums for trellis, window boxes or brush planting, nor sarpass them in freedom and profusion of bloom. On good soil they grow 8 ft. tall. Our mixture includes a wonderful diversity of colors, some are solid while others are beautifully mottled and striped. Pkt. 5c.; 1/2 oz. 10c.; oz. 15c.

# Pyrethrum

AUREUM—One of our most attractive and useful plants for borders and edgings, Grows 8 to 10 in. tall, toliage is an attractive golden color contrasting well with other green foliaged plants.

#### Dwarf Phlox

NANA COMPACTA MIXED—This splendid race of dwarf annual Phloxes cannot be overpraised for brightness and beauty. The plants are always lavishly covered with large flowers of the most brilliant hues. Nothing better for bedding purposes is listed in this catalog. They succeed everywhere and are in universal favor for summer growing flowering purposes. Bushes are dwarf and compact, six to eight inches high, forming dense masses of bloom all sumer. The colors include pure white, deep and showy red with white eye and many other shades. Pkt. 8c.

Mrs. Sarah A. Clark, III .- All seeds from you have always been satisfactory, the Asters are so beautiful that others have become your customers too.

# Phlox Drummondii

GRANDIFLORA MIXED-This superb strain is notable not GRANDIFLORA MIXED—This superb strain is notable not only for variety and brilliancy of colors but also for the perfection and size of the flowers. Many of the single flowers are so large that they will nearly cover a 50-ccm piece. The colors range from pure white to deepest red or crimson while the clear eye of some of the flowers is peculiarly marked. For a mass of splendid colors no flower will give a more satisfactory return for so little cost. Pkt. 7c.

GIANT FANCY PANSIES

#### **Pansies**

JUNG'S GIANT FANCY MIXED-This "Fancy Mix-JUNG'S GIANT FANCY MIXED—This "Fancy Mixerure" contains seeds of the largest, richest and handsomest pansies known to the horticultural world. The well formed expanded flowers are uniformly of the largest size and of fine substance; they are borne on long, stiff stems well above the heavy deep green foliage. The colors are rich and varied such as white cream, yellow, deep orange, mahogany, claret, reddish bronze rose; all are distinctly blotched. The compactly rounded plants are of sturdy habit and bear gigantic flowers profusely and continuously. Pkt. 20c.; ½ 02. 75c.

GIANT MASTERPIECE—This giant Pansy is remarkable for having its petals waved or folded, giving it the appearance of a double flower. The truly giant sized flowers are of the most striking character; the petals being of a rich, velvety substance and heavily ruffled. The colors are mainly dark rich shades, boxdered, blotched or marked in ray-like veinings. The mammoth size, richness and beauty of colorings makes the Masterpiece one of the most interesting pansies ever developed. Pkt. 15c.; 2 pkts. 25c.; 1/8 oz. 50c.

Petunias DEFIANCE MIXED—This strain bears grand, substantial flowers of the largest size in profusion. The flowers frequently measure five inches across; the colors are indescribably rich and varied. Most of the flowers are fringed beautifully and have open throats. All are distinctly veined e-pecially in the throat portion and in many the throat is darker than the outer portion of the petals, imparting a rich velvety effect. Some of the colors are rich and gorgeous while others are of lovely delicate shades. Pkt. 20c.; 3 pkts. 50c. 3 pkts. 50c.

PHLOX DRUMMONDI

GIANT DOUBLE POPPIES

## **Poppies**

GIANT DOBLE MIXED—These double fringed annual Poppies are very beautiful; they belong to the carnation-flowered type, the large flowers having the same globe formation with gracefully fringed petals. Plants are of branching, stocky growth, 15 to 18 inches high, each plant carrying several of these exquisite flowers. The great variety of fine color ranges from the most gorgeous shades down to pure white. They are of the easiest culture. Pkt. 5c.; 1/8 oz. 15c.

## Summer Poinsettia

An easily grown annual, growing 18 to 24 in. tall. About the middle of the summer the top center leaves turn to a rich orange scarlet resembling a Poinsettia. Also useful for bouquets. Pkt. 7c.; 2 pkts. 10c.

SUMMER POINSETTIA

# **Rainbow Flower Garden**

We have made up a choice mixture of We have made up a choice mixture of easily grown, free flowering and brightly colored flowers. Each packet contains sufficient seed to sow a row 30 to 40 ft. long or a bed 10 by 15 ft. Sow a packet of this seed, it will make a bright spot in your garden and also supply many beautiful bouquets. Pkt. 8c.; 3 pkts. 20c.

#### Sweet Scented Buble Nasturtium "GOLDEN GLEAR"

One of the most popular flowers ever introduced. Easy to grow and produces a mass of double sweet scented flowers for a long time. Pkt. 7c.; 1/2 oz. 10c.; oz. 15c.

SALVIA BONFIRE

#### Brilliant Salvia

BONFIRE—One of the finest Salvias and the grandest bedding plant known. The plants grow very bushy attaining a height of about 30 inches and single plants often carry 100 spikes measuring 10 to 12 inches in length. The flowers are of a brilliant dazzling searled and from the time they first begin to flower the plants are a continuous blaze of color until killed by frost. We know of no other flower that will equal the gorgeous effect of a row or bed of these Salvias when in full bloom. Why pay from 50 to 70 cents per dozen for these plants when you can raise at least 50 plants from a pkt, of our seed. Pkt. 8c.; 3 pkts. 20c.; ½ 8c. 35c.

# Summer Azalea or Satin Flower

An easy growing annual that rivals the Azalea for beauty of its fine rose-like blossoms. Seed may be sown in the garden and by July they are a complete mass of blossoms completely hiding the foliage, Blossoms shiny like satin, deep rose colored and remain in blossom a long time. Pkt. 7c.; 2 pkts. 10c.

ICELAND POPPIES

# Poppies

ICELAND MIXED— Hardy perenniats that bloom the first season. The fragrant, elegant satin-like flowers are produced from June until October on stems 12 in long and are excellent for cut flowers as they last fully a week. Our seed includes the most beautiful colors. Pkt. 7c.; 2 pkts.

BUSH SWEET PEA

#### Bush Sweet Peas

DWARF or BUSH MIXED-Many people DWARF or BUSH MIXED—Many people wish to grow Sweet Peas but do not care to bother with putting up a trellis or support. By planting this new strain you can grow fine large flowers without support as the plants grow but 15 to 18 in. tall and will delight you with their abundance of fine large flowers for a long time. Our strain is made up of fancy large flowering strains and will give splendid results. May also be sown in pots for winter blooming. Pkt. 10c.; ½ 20c.; oz. 35c.

J. W. Jung Seed Co., Randolph, Wis. -49 C-

#### Verbena

FAIRFIELD FAMOUS MIXED-FAIRFIELD FAMOUS MIXED-we offer you a giant flowered mixture of these beautiful an-muals. The trusses measure 9 to 12 inches in circumference and the individual florets on well grown plants measure one inch across. They bloom freely, are vigorous in growth and qontain beautiful new colors and shades. A mass of bloom from July until heavy frosts. Pkt. 8c.; 1/8 oz. 25c.

CHINESE WOOLFLOWER

Mrs. Ailce Krapf, III.—Your garden and flower seeds are surely good.

SWEET ALYSSUM

### Sweet William

HARDY ANNUAL MIXED — The old favorite Sweet William as all know does not flower until the second year but this new strain will begin to bloom in 50 to 60 days from seed sown in the spring and will continue to blossom all summer. The flowers or heads are of large size, very fragrant and of various colors, white, crimson, rose-pink, etc., many of which are edged with white. Splendid for beds or borders. Pkt. 7c.; 2 pkts. 10c.; 1/8 oz. 15c.

SNOW-ON-THE-MOUNTAIN

#### Snow-on-the-Mountain

EUPHORBIA VARIEGATED - An annual growing 2 ft. high with broad green leaves veined and margined with white. Very fine and ornamental for borders and may also be very attractively used in a bouquet with other flowers. Pkt. 5c.;

#### Chinese Woolflower

Chinese Woolflower

Most Magnificent Garden Annual Ever Introduced. The plants average 2 feet in height branching freely, each shoot bearing a beautiful ball of wool in pink, yellow and scarlet. It flowers early and profusely and the heads of bloom mixed with fresh green foliage makes the plant look like an immense bouquet set in the ground. They continue to grow with a richness of color all summer and fall until severe frosts destroy them. A rare novelty. Fresh cut flowers when dried are very much used for winter decoration. Pkt. So.; 3 pkts. 20c.

#### Sweet Alyssum

LITTLE GEM -Free flowering LITTLE GEM — Free flowering handsome annuals for beds, edgings, etc. This variety is very dwarf and blooms profusely forming a mass of solid pure snowy whiteness throughout the summer. Excellent for either beds, borders, or edgrags; try it once and you will always want it. Pkt. 7c.; pkts. 10c.; 1/4 oz. 25c.

Bert McNutt, Ind .- We like your seeds very much, the Four O'Clocks and double Nasturtium were m wonder to all who saw them.

ANNUAL SWEET WILLIAM

Mrs. LeRoy Tucker, Columbus, O .- 1 have grown your seeds in 4 states with 4 kinds of soil and they always produce the finest flowers in the neighborhood.

### Sunflower

CHRYSANTHEMUM FLOWERED-Grows 4 to 5 feet tall. Perfectly double. The color is the brightest golden yellow. The plants branch and afford fine stout stems for cutting. This gigantic Sunflower will be of great value for the hardy garden and herbaceous border. The flowers are so perfect in form that they resemble Chrysanthemums. Pkt. 7c.; 2 pkts. 10c.

HARDY SWEET PEA

# Hardy Sweet Pea

JUNG'S FANCY MIXED -The plants are hardy and increase in size and beauty from year to year. Vines may be trained on a trellis or allowed to cover rocks or other objects. Produces a mass of sweet-pea like flowers in clusters of 8 to 10 and come in shades of white, pink and deep rose. Pkt. 8c.; 3 pkts. 20c.

### Vinca

GIANT FANCY MIXED- Very lovely and free blooming plants lovely and free blooming plants that are suitable for pot plants or blooming outside in the garden. #### Latham

THE GIANT RED RASPBERRY

By far the best raspberry to be had and stands unsurpassed for vigor and hardiness, stands unsurpassed for vigor and hardiness, size and handsome appearance of berries. Has made the remarkable yield of 5,480 qts. per acre. Hardy even as far North as Canada. The ability of Latham to yield so heavily, together with the large size and fine appearance of the berries make it unquestionably the most profitable variety for either the home or market garden. Many plants will bear fruit the first year they are set out. Price of strong disease-free plants: 6 for 35c. 12 for 65c.; 25 for \$1.00; 100 or \$3.25. 2 yr. bearing age plants: 12 for \$1.10; 25 for \$2.00.

## **Indian Summer**

A grand new everbearing Raspberry sur-passing all other varieties, See Inside Back

# Jung's Berry Collection

If you want the best Berries to be had try the following:

25 Gem Everbearing Strawberries

25 Jung's Wonderbearing Strawberries

12 Latham Raspberries

12 Giant Cumberland Raspberries

12 Indian Summer Raspberries

At catalog prices these amount to \$3.20 but as a special offer we will send the above for only \$2.75 postpaid.

A Most Promising New Red Raspberry

An excellent new variety from the New York Exp. Station. Taythe New York Exp. Station. Taylor is a thrifty grower and a heavy yielder of large bright red berries. Select plants: 12 for \$75c.; 25 for \$1.25; 100 for \$4.25. 2-yr. bearing age plants: 12 for \$1.25; 25 for \$2.25.

# Sodus

The Best Purple Raspberry

Far superior to Columbian as the berries are larger, of better quality and the plants are hardier. Plants are vigorous and bear an unusually large crop. Will not spread from roots or shoots. Strong 2 yr. plants: 12 for \$1.00; 25 for \$1.75; 100 for \$6.75.

FREDONIA

# Fredonia Grape

Considered the best grape for the northern states as it grows a vigorous hardy vine and ripens almost two weeks earlier than Concord. Clusters are good sized and compact, berries are large in size and of very fine quality. Select 2 yr. plants: Each 25c.; 3 for 65c.; doz. \$2.25.

# Cumberland

The Giant Black Raspberry

This is offered with assurance a most desirable variety beas a most desirable variety no-cause of its immense size, fine qual-ity and great productiveness. It is a wonder in size of berries and vig-or of growth and is as hardy as any variety grown. Fruit is jet black and of extra fine quality. By far the best results in growing Black Raspberries have been obtained from 2 yr. or transplanted plants. We are now offering only 2 yr. old plants at prices very little more than was formerly charged for inferior 1 yr. Please bear this in mind when comparing prices. Heavy 2 yr. Plants: 6 for 50c.; 12 for 95c.; 25 for \$1.65; 100 for \$6.25, post-

Wis. Hybrid No. 525 as Grown on Our Farms.

# **UNG'S WISCONSIN HYBRID CORN**

When you plant Jungs Hybrid Corn you may rest assured that you are getting seed corn of the highest quality. All of the Hybrid Seed Corn we offer was grown on our farms in Columbia Co., Wis., and you are dealing direct with the grower.

We were one of the first growers in Wis. to produce Hybrid Seed Corn, the planting, detasseling, drying, and grading is done by men who have had many years of experience in this work.

Our Hybrid Corn is grown from tested and proved crossing stocks produced by the University of Wis.

# Not All Hybrid Corn is Good!

The value of Hybrid Corn depends entirely on how the inbreds were selected and crossed and how carefully the detasseling was done in the crossing fields. Unless this work is properly done poor results will be had from planting such seed. All of the Hybrid Corn we offer was grown here on our seed farms by experienced men who know how to grow and take care of this work properly. All of our Hybrid Corn meets the strict requirements of our State regulations for detasseling, grading, and germination.

Hybrid Corn (left) and ordinary corn (right). Note difference in yield and how Hybrid Corn stands up. Photo courtesy Wis. College of Agr.

# 1941 Hybrid Corn Prices

Although prices on our Hybrid Corn are lower than ever before the quality is up to the highest standards. When you can plant Hybrid Corn for a seed cost of 50c per acre why plant ordinary corn?

# STATE BLUE TAG CERTIFIED

The following prices are for any variety.

WIS. HYBRID 330

#### Wis. Hybrid 330-90 day

Although this is the earliest maturing Hybrid Corn it is a high yielding strain. comparison to early strains of open pol varieties, over a three-year period, it outyielded them by over 25 per cent. Grows a good strong medium height stalk and "stands up". Ears 7 to 8 in. long and contain 14 to 16 rows of deep yellow kernels. A remarkable extra early yellow dent

#### Wis. Hybrid 455-100 day

This Hybrid is about the same maturity as early strains of Golden Glow and is especially suited for central Wis., Minn., and similar latitudes. If you wish to shred your corn you will find this variety will mature early and the stalks will cure out properly. early and the stalks will cure out properly. Even though it ripens early it is a remarkably heavy yielder. Ears are 7½ to 8½ in, long, deep golden color and have 14 to 16 rows of deep kernels. It grows strong vigorous stalk, 8 to 9 ft, tall, well supplied with foliage and has a strong root system, it will stand up and produce a fine crop even in hot dry seasons. We consider this the most suitable Hybrid for central this the most suitable Hybrid for central Wis, and Minn. Made some wonderful record yields this past season.

#### 95 day Hybrids Wis. 355 and 404

Although both of these are classed as 95 days Hybrids No. 355 is a few days earlier than 404. Both are remarkable yielders for such early varieties, they are well suited for sections having short seasons or where for some reasons corn is planted late. Ears are of large size for an early corn, stalks grow 7 to 8 ft. tall and like all good hy-brids stand up straight

#### Wis. Hybrid 525-105 day

In color on page 56

This remarkbly fine yealow dent was grown on our farms from seed stock obtained direct from the Wis Experiment Station, It will ripen at the same time as regtion, It will ripen at the same time as regular Golden Glow. Ears are fully as large as Golden Glow, symmetrical in shape, uniform and handsome in appearance. Stalks grows 8-9 ft. tall, stand up straight and practically every stalk bears a large ear. This is the most popular and widely used Hybrid for central Wis. and Minn. Many of our customers have had yields of 80 to 90 bu. per acre. We sell more of this than any other Hybrid.

P. J. Hess, Iowa—The Hybrid Corn I purchased from you did the best of any Hybrid in our neighborhood.

Lawrence Hudson, Minn.—I got two bushels Wis. Hybrid No. 525 from you last year and it was the best corn I ever grew. It went about 95 bu. to

WIS. HYBRID NO. 645

### Wis. Hybrid 645-115 day

This is our largest and heaviest yielding Hybr.d. It grows a strong tall stalk, 9 to 10 ft. high, well supplied with heavy leaves. Each stalk will produce a large handsome ear and it does not take many of them to fill a bushel basket. Especially suitable for southern Wis., Minn., and all parts of Ill., Iowa and similar latitudes. This seed was grown on our farms here in Wis., and made a yield of 65 bu, per acre.

#### Wis- Hybrid 570-110 day

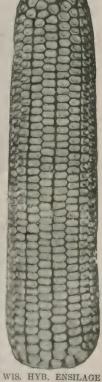

An excellent 110 day Hybrid suitable for An excellent 110 day Hybrid suitable for Southern Wiss., Southern Minn., Northern Ill., Iowa and similar latitudes. Produces large long ears well filled with deep yellow kernels, in fact one of our most beautiful Hybrid Corns. The heavy yield of large handsome and symmetrical ears will delight every farmer who plants this corn. Grows a strong heavily leaved stalk 8 to 10 ft. tall and always stands up. This seed was grown on our own farms. was grown on our own farms.

# Wis. Hybrid Ensilage Corn

Will Fill Your Silo With Less Acres. Giant Sized Ears. Tall Leafy Stalks. Stands Up.

Here is a heavy yielding Hybrid Corn that is hard to beat for either ensilage or that is hard to beat for either ensilage or ear corn. It grows a strong, tall, leafy stalk, 9 to 10 ft. that will withstand lodging and in addition each stalk will produce a large well developed car. The stalks and leaves remain green for a long time thus making a very fine quality of ensilage. Those who had lodged corn the past season will appreciate corn that stands up under adverse conditions like this corn did. Ears are well developed, 8 to 10 in. long and a rich golden yellow color. Yields of 60 to 70 hm. per acre have been frequent. Bu. \$4.00; 5 bm. \$18.50. Graded Round kernels: Bu. \$2.95; 5 bu. \$13.90.

When you plant Jung's Hybrid Corn you may rest assured that you are getting the highest quality.

WIS. HYBRID 570

WIS. NO. 38 BARLEY

WIS. NO. 7-STATE'S PRIDE

### Wis. No. 7-State's Pride

The past season the superior qualities of early oats were especially noticeable as they produced much heavier oats and larger yields than later varieties due wholly to the fact that they ripened before the severe heat. It ripens as early as barley, in fact can be cut and shocked while the common oats are still green. They grow a stiff straw and every bundle seems to be a mass of heads so you will not have to handle a lot of straw to get a bushel of oats. Owing to its stiff straw it is well suited for growing on rich soil. It is a remarkably good yielder, on a test plot it produced 108 bu. per acre. Kernels are medium in size and have a very thin hull, this accounts for their heavy weight as they seem to be all meat. The sowing of extra early oats is increasing every year and you will make no mistake by planting part of your oat land with this variety. Fancy State Registered seed of our own growing. Lb. 25c.; 3 lbs. 50c., postpaid. Not prepaid: Bu. 80c.; 10 bu. \$7.80; 25 bu. \$19.00.

# **Jung's Select Farm Seeds**

No other article will bring a farmer greater returns on his investment than planting the best seeds it is possible to purchase. It costs just as much to raise m poor crop as a good one and without good seeds the best land and cultivation cannot produce m good crop. The Farm Seeds which we offer are uniformly of the VERY BEST GRADE, free from foul weeds and of high germination. The Earliness and Tremendous Productiveness of Northern Grown Seeds needs no comment, they stand at the head of the list. No charge for bags, remember this when comparing prices. All prices subject to change.

# Wis. No. 38 Barbless Barley

The Coming Barley. Smooth Beards, Easy to Handle as Oats. Large Plump Kernels. Heavy Yielder. Why grow the old bearded Barley any longer? The new barley is pleasant to handle, will also yield more and is a No. 1 brewing barley. The beards are smooth and will not cling like the ordinary barley and for this reason will soon displace the rough bearded varieties. However, the smooth beards are not its only good characteristic; in a test conducted at the Wis. Exp. Station over a period of four years the Wis. 38 average yield was 54.6 bu. per acre. We have some extra nice State Registered seed. Lb. 30c.; 3 lbs. 60c., postpaid. Not prepaid: Bu. \$1.10; 10 bu. \$9.75; 25 bu. \$23.75.

# SEED OATS

We make a Specialty of Pedigree Seed Oats. This not oats that is bought on the open market, given a fancy name and then sold at m good price. Our Oats is grown from the best Pedigree stock on clean land and man be relied upon to give the best satisfaction.

F. W. Wieland, Jr., III.—The seed oats received from you was the best yielding in our threshing ring.

#### Wis. No. 5-Bumper Crop

A Pedigree Oats originated at the Wis. Experiment Station. Wis. Ped. No. 5 has a very thick white kernel, medium in length, heavy and very attractive; in fact the finest looking oats we have; big fat kernels fairly bursting with life and energy. It grows a strong rank straw and is especially adapted for heavy clay soils. Has made splendid yield records. Select State Certified seed of our own growing. Lb. 25c.; 3 lbs. 50c., postpaid. Not prepaid: Bu. 75c.; 10 bu. \$7.20; 25 bu. \$17.75.

#### Wis. No. 1241—Forward

Forward is mew pedigreed variety from the Exp. Station. It is a handsome white, medium early, heavy yielding oats that is giving splendid results in all parts of Wis. The kernel is pure white, plump, medium in size and has me thin hull. It grows medium height straw and stands up well. We have a fine stock of State Certified seed to offer this year. Lb. 25c.; 3 lbs. 50c., postpaid. Not prepaid: Bu. 80c.; 10 bu. \$7.50; 25 bu. \$18.25. Bags free.

It Pays to treat your Seed Grain with Ceresan. See Page 62.

GIANT JAP. BUCKWHEAT

WIS. NO. 5 OATS

FORWARD OATS

# BUCKWHEAT

Giant Japanese

Heavy Yields. Vigorous Grower.

Large Kernels.

A new variety of great merit, t grows a stronger plant and yields much larger crops than the older strains. Seed dark brown, almost black, extra large in size and will command an extra price on the market. An excellent crop to kill out quack grass. Extra choice seed of our own growing. 3 lbs. 60c., postpaid. Not prepaid: Bu. \$1.45; .5 bu. \$7.00.

THATCHER WHEAT

#### Wis. No. 15-Improved Smut Nose Flint Corn

EXTRA EARLY. ENORMOUSLY PRODUC-TIVE. EARS OFTEN OVER 15 IN. LONG.

This variety was developed, improved, and first sent out by the Wisconsin Agricultural Experiment Association. It is more prolific than any other flint corn and also has a stronger stalk being especially well adapted to Wisconsin conditions. The ears are long, often 14 in., and have eight rows of large yellow kernels which shade to deep red towards the tip. The stalks grow from 6 to 7 wards the tip. The scales grow hom of the feet tall and make excellent corn to plant for "hogging down" as it matures so early. We have an excellent lot of seed of our own growing. Lb. 30c.; 3 lbs. 75c., postpaid. Not prepaid: Pk. 75c.; bu. \$2.50; 2½ bu. \$6.00.

### Thatcher Spring Wheat

Rust Resistant. Ripens Early. Heavy Yielder. We have tried out many different varieties of Spring Wheat on our farms and have had the best results with Thatcher. It was originated by the Minn. Exp. Station and has given the best yields of any variety It is beardless, early maturing and stands up well. Tests have proved it to be the equal to Marquis for milling and baking qualities. Sow not over 1½ bu. per acre as it stools out heavily. Owing to unfavorable weather during harvest the germination of this seed is not as high as we would like it. However, if you sow 1½ bu. per acre it will give you a heavy stand. Lb. 300-, 3 lbs. 60c., postpaid. Not prepaid. Bu. \$1.40; 5 bu. \$6.75.

#### Pllut Spring Wheat

A new medium early variety that was originated by N. D. Exp. Station. It is a beauded wheat and has longer heads and larger kernels than any other spring wheat. Grows a strong straw and is very resistant to disease. This was the highest yielding variety on our farms the past season. Select seed of our own growing: Lb. 30c.; 3 lbs. 60c., postpaid. Not prepaid: Bu. \$1.60; 5 bu. \$7.50.

# SOY BEANS

Inoculate Your Soy Beans-It Pays

See Page 62

Soy Beans are rapidly becoming one of our major crops as they can be used in so many ways. They are grown for hay, silage and the cured beans. They are the only legume crop that can be grown on acid soil and build up the fertility. Prices are subject to market changes.

#### Illini

A very popular and widely grown variety and a good yielder. One of the best kinds to sow for hay or forage as it is finer stemmed and, leafier than many other varieties. Lb. 250.; 3 lbs. 50c., postpaid. Not prepaid: Pk. 500.; bu. \$1.70; 10 bu. \$16.50.

#### Wis. Manchu No. 3

A selection of Manchu made by the Wis Exp. Station. It is earlier and an even heavier yielder than the old variety. It ranks as the best variety for southern Wis., Minn., and similar lat-itudes. Fancy seed grown on our own farms: Lb. 25c.; 3 lbs. 60c. postpaid. Not prepaid: Bu. \$1.80; 10 bu. \$17.50.

C. Hauerwas, Wis.—Was well satisfied with all seeds purchased from you and thank you for the prompt service.

# Wilt Resistant Flax "Bison"

This is rapidly replacing other varieties as it is resistant to wilt. It has a large seed and is the best yielder. Sow early or right after grain, broadcast at the rate of 25 to 35 lbs. per acre. Fancy seed of our own growing: Lb. 25c.; 3 lbs. 60c., postbaid. Not prepaid: Pk. 95c.; bu. \$3.25; 5 bu. \$15.25.

#### **Atlas Sorgo**

A new strain of cane that will produce remarkably heavy crops of succulent feed and is excellent for silage. It grows rapidly, stalks reach a height of 7 to 10 ft.; they are very leafy and remarkably sweet and juicy. Also an excellent green feed for hogs and is relished by all live stock. Sow in rows, 5 to 6 lbs. per acre. Lb. 25c.; 3 lbs. 60c., postpaid. Not prepaid: 10 lbs. 80c.; 100 lbs. \$5.25.

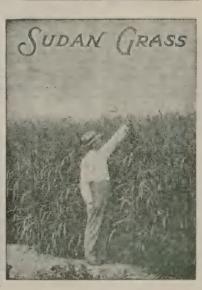

The Wonderful New Forage Plant

Sudan Grass, although comparatively a new plant, is becoming very popular. It is far more valuable for hay than millet or any of the sorghums as it is just as easy to grow and will produce more and better hay. It makes a heavy yield, 3 to 5 tons of cured hay per acre, usually two cuttings per season can be made for it will grow again like alfalfa. The hay is of excellent quality and all kinds of stock eat it readily. An excellent crop to sow after early peas as it can be sown as late as July 10th and still make a crop. Sow broadcast like oats, 20 to 25 lbs. per acre, any time from May 20th to July 10th. Try some, we know you will like it. Lb. 25c.; 3 lbs. 50c., postpaid. Not prepaid: 25 lbs. \$1.35; 100 lbs. \$5.10; 500 lbs. \$25.00. Price subject to change.

SMUT NOSE FLINT

New Improved Semesan Jr. increased the yield on the average 3.55 bushels per acre. Only 4 ears, or 31/2 pounds of corn required to pay for this increase in yield.

#### Treat Your Seed Corn With New Improved SEMESAN JR.

Diseases of corn, such as Ear, Root and Stalk Rots that attack corn cause millions of dollars loss every year to the American farmer. Semesan Jr., not only holds these diseases in control but it also increased the yields from 5 to 10 per cent. We have found it extremely valuable for treating all of the corn we plant, especially when the soil is wet and cold, as it will prevent rotting of the seed. It is easy to aprily to the seed by dusting, using 2 to 3 oz. to a bushel of seed. It only costs 3 to 5 cents per acre to treat your seed corn and we believe is one of the best paying investments any farmer can make. Ask for booklet on Treating Corn With Semesan Jr. 4 oz. can 35c.: 1 lb. can 85c.: 5 lb. can 83.50.

SEMESAN IR

SEED CORP

35c.; 1 lb. can 85c.; 5 lb. can \$3.50.

### **New Improved Ceresan** Will Increase Your Crain Yields

PREVENTS SMUT. INCREASES THE YIELD. LOW COST.

Why grow smutty grain, which greatly reduces your yield, when for 2 to 3c per bu. you can treat your seed and prevent a loss. Very effective in preventing bunt or stinking smut on wheat, covered smut and stripe disease on barley and smut on oats. Also improves the stand and will increase your yield from 3 to 5 bu. per acre. Easily and quickly applied, requires no water, and will not bother in sowing after it is treated. A pound an will treat 30 bu. of seed grain. Full instructions on very can. 1 ib. can 75c.; 5 lb. can \$3.00

REED CANARY GRASS

Only 0.4 of m bushel of the average yield increase of 35.4 bushels was required to pay for the improved Semesan Bel, leaving m return on money invested of 9330 per cent.

Easy to Apply. Costs only 2c per Bu. Prevents Scab and Rot.

#### Treat Your Potatoes With New Improved SEMESAN BEL

Treat your seed potatoes with New Improved Semesan Bel. The quick dip treatment will take care of most any kind of potato disease, especially rot and scab. One pound will treat from 60 to 80 bushels, which makes the cost of treating from 1½ to 3 cents per bushel. Full instructions

on every can. 2 oz. pkg. 25c.; 1 lb. can \$1.60; 5 lb. can \$6.75.

TREAT WITH OUICE, EAST SIDINIDISTANCE DIP FOR LARGER POTATO CROPS

# Dwarf Essex Rape

The greatest of all forage plants, It is ideal for sheep pasture and is now largely sown for cattle and hogs. It furnishes an immense amount of green feed on a small area and its nutritive value is nearly twice that of clover. Under favorable conditions it is ready for pasturing in 6 weeks from the time of sowing and furnishes excellent feed throughout the summer and fall. Dwarf Essex Rape thrives best on good soil, rich in vegetable matter. Rape should be sown in drills at the rate of three pounds to the acre, all through the summer months so as to furnish a successive crop of sheep and hog feed. We handle the VERY BEST SEED which is always sure to give satisfaction. Lb. 35c.; 3 lbs. \$1.00, postpaid. Not prepaid: 10 lbs. \$2.00; 25 lbs. \$4.70; 100 lbs. \$18.00.

# German or Golden Millet

In the North Millet is grown almost altogether for hay and for that purpose Southern grown seed is much the best. It grows taller and finer than than from Northern seed and that means more and better hay. German Millet is very sweet palatable, and when fed to dairy cows produces a large amount of milk. On good soil it grows four to five feet high. It is very tender when cut at the right stage, which is when it is in full bloom, ..Not prepaid: Pk. 70c.; bu. (50 lbs.) \$2.25.

# Reed Canary Grass

A very valuable pasture and hay crop suitable for low wet ground. Such land is almost worthless for ordinary farm crops but it can be made into some of your most productive land by sowing it to this crop. After once started it remains for many years, it will produce two cuttings of 3 to 4 tons of excellent hay, or may be pastured. It is very hardy, never freezes out and has successfully come through the recent drought years. It makes a very high quality hay, much better than Timothy, is highly relished by horses and cattle. Requires 5 to 6 lbs. seed per acre, full planting instructions will be sent with every order. Lb. 40c.; 5 lbs. \$1.80, postpaid. Not prepaid: 10 lbs. \$2.25; 25 lbs. \$4.90; 100 lbs. \$19.25.

# **Fancy Recleaned Clover Seed**

Clover is without any question the most popular and widely grown crop for hay, pasture and also for building up or enriching the soil. This season the price of the seed its very reasonable and every farmer should sow clover librate this seed by the clover nothing is more important than the seed be pure and free from foul weeds. Beware of imported clover, it may be cheaper in price but it is not suited for our climate and often contains many foul

#### Medium or Red Clover

We have an unusually fine stock of Medium Clover Seed, It is bright, pure, of high germination and free from foul weeds. This is the standard Red Clover and a dependable all-around variety for farmers and stockmen. It makes two crops a year. The first is usually cut when in bloom for hay; the second crop may be cut for hay, harvested for seed or plowed under to add fertility to the soil. It pays always to buy the best grade of CLOVER SEED that can be obtained. Even though the first crop cost is more than the cheaper grade, it will be found in the large grade of CLOVER SEED that can be obtained. Even though the first crop cost is more than the cheaper grade, it will be found in the long run that inferior seed is the most expensive, not only on account of less hay or seed produced from it but from the fact that one's land is liable to become infested with weed seeds. Sow GOOD CLOVER SEED and plenty of it. Fancy Northern Grown Seed: Lb. 40c.; 3 lbs. \$1.00, post-paid; not prepaid: Pk. \$2.85; bu. \$9.75; 2½ bu. \$24.00.

NOTE — The Clover seed which we are offering is all fancy recleaned seed grown in Wis., Minn., and Idaho. Do not confuse this with southern grown or imported seed which is not suited for the northern states.

#### SWEET CLOVER

Sweet Clover belongs to the family of leguminous plants and adds greatly to the fertility of the soil on which it is grown. Sweet Clover will grow and the fertility of the soil on which it is grown. Sweet Clover will grow and make a crop on soil where other clovers and grasses would perish and makes a very good hay for cattle, also excellent pasture for hogs, being the first to start in the spring and the last to be killed by frost in the fall. It is coming into popular favor more every year as its good qualities are being recognized. As the price of the seed is very reasonable every farmer should sow some.

#### Fancy White Blossom

A very popular and widely used variety for pasture and soil enriching; largely sown for all purposes. Fancy Seed: Lb. 35c.; 3 lbs. 80c., postpaid. Not prepaid: Pk. \$1.45; bu. \$4.80; 2½ bu. \$11.75.

#### Fancy Yellow Blossom

This is the large strain of Yellow Sweet Clover very similar to White Blossom except for color of flowers. Some farmers like it better for pasture as they say it stays green longer. Fancy Seed: Lb. 35c; 3 lbs. 80c., postpaid. Not prepaid: Pk. \$1.50; bu. \$5.10; 21/6 by. \$12.50 Not prepaid: Pk. \$1.50; bu. \$5.10; 2½ bu. \$12.50. Our Sweet Clover seed is all soarified

hasten and improve germination.

KENTUCKY BLUE GRASS

#### Alsike Clover

The advantage of Alsike over Red Clover is its true perennial character and great hardiness. It will adapt itself to extremes of either wet or drought and will flourish on soils where red clover would not grow; it is also more leafy and does not have heavy stalks and for this reason makes a much finer hay especially when sown with Timothy. It is highly nutritious and very fragrant; excellent for bees. Also excellent for pasture as it is highly nutritious and very fragrant; excellent for bees. Also excellent for pasture as it is very hardy and seldom winter-kills. Alsike is the only clover that will thrive and not kill out on low places. Fancy Extra Clean Seed: Lb. 40c.; 3 lbs. \$1.00, postpaid. Not prepaid; Pk. \$3.00; bu. \$10.50.

#### Mammoth Clover

This is well known for its enormous yield and is largely used as a fertilizer to plow under green. It is very hardy and hardly ever produces so much forage. It produces very large crops of hay, 3 to 5 tons per acre. As a fertilizer to plow under green it has no equal; also excellent to sow with small grain for fall pasture, using from 4 to 6 lbs. per acre. Lb. 40c.; 3 lbs. \$1.00, postpaid; not prepaid: Pk. \$2.90; bu. \$9.85. Bags free.

ALSIKE CLOVER

## Fancy Recleaned Timothy

As a crop for hay TIMOTHY is probably unsurpassed by any other grass. It is highly relished by all kinds of stock, especially horses. It yields more nutritive matter than any other grass or forage plant. It is not suited for a permanent pasture as it will run out in the course of a few years. The largest crops of hay are raised on rich land. It is not The largest crops of hay are raised on rich land. It is not suited for light, sandy soil as well as some other grasses. The most important point in the growing of TIMOTHY is the selection of GOOD SEED. POOR SEED, besides containing weed seeds WILL NOT ALL GROW. Extra Fancy Seed: Lb. 20c.; 3 lbs. 50c., postpaid; not prepaid: Pk. 85c.; bu. \$3.15 21/2 lb. \$7.50. Bags free.

#### Fancy Kentucky Blue Grass

Also known as June Grass. A very valuable grass for sowing down pastures and also the standard grass for lawns. We offer fancy heavy seed and price is very reasonable this year Lb. 40c.; 3 lbs. \$1.10, postpaid; not prepaid: 10 lbs. \$2.90; 25 lbs. \$6.00; 100 lbs. \$23.00.

### Fancy Hulled Red Top

A suitable grass for moist, rich soils where it thrives most luxuriantly. It is good variety to sow with Timothy or elover for meadow or pasture and is more permanent than either of the other two Lb. 40c.; 3 lbs. \$1.10., postpaid. Not prepaid: 10 lbs. \$2.90; 25 lbs. \$5.40; 100 lbs. \$18.50.

TIMOTHY

# ALFALFA THE GREAT HAY CROP FOR AMERICA

A clover-like leguminous plant of great importance as a hay crop; nutritious and rich in protein elements. It grows from 2 to 5 feet high and roots 8 to 12 ft. deep. It needs one season to become established; after that it yields enormous crops annually for years. Two to six cuttings per season, aggregating three to eight tons of cured hay are harvested, according to conditions and locality. It does well on all good rich soils, except heavy clay, if it is well drained. It is a perennial plant lasting many years under good treatment. It should be grown by every farmer and dairyman. NOTE—All of the Alfalfa seed we offer is strictly select quality seed of the highest grade. It is plump, of high germination and free from foul weeds. Do not confuse this seed with second or screening grade often offered at "bargain prices".

DRY LAND Dakota No. 12—This strain is practically as hardy as Grimm and is very popular here in the north where winters are severe. The seed we offer is of very high quality and was grown on dry land in the "Blackhills" region where winters are even more severe than in Wis.

HARDY CANADIAN ALFALFA—This is probably one of the most hardy strains of Alfalfa, the seed we offer was grown in Ontario, Canada, and should, therefore, survive any Wisconsin winters. You will find this strain to compare very favorable with the regular Grimm and it does not cost as much.

HARDY MONTANA—Has the reputation of being one of the hardiest common Alfalfas and well deserves its popularity. We have some very fine seed this year.

FANCY KANSAS—Although lower in price it has proved very desirable for hardiness. At the Wis. Exp. Station they rank it next to Mont. and S. Dak. for hardiness. Our seed is very fancy.

BLUE TAG GRIMM—There is no longer any question as to the hardiness of Grimm Alfalfa. It succeeds where other varieties fail and produces a good crop of fine stemmed and heavily leaved hay. Our seed is "Blue Tag", high in germination, pure and free from foul weeds,

James Hoskins, III.—Your seeds aire just as you represent them to be, have used them for years with good results.

CANADIAN REGISTERED GRIMM—This seed was grown near Winnipeg, Canada, and is considered to be one of the hardiest strains of Grimm Alfalfa obtainable. Very high in purity and germination.

BLUE TAG COSSACK-This fine newer Alfalfa is fully as hardy as Grimm and will make even a nicer quality of hay as it is very fine stemmed and unusually leafy. In addition it has proved much more resistant to alfalfa wilt. Our seed is "Blue Tag" or strictly first quality seed for purity and germination.

#### Why You Should Grow ALFALFA

It is always advisable to inoc. ulate Alfalfa.

It contains as much protein as wheat bran.

It does not exhaust but riches the soil.

It produces from three eight tons of hay to the acre.

One acre will pasture 20 hogs for 6 months.

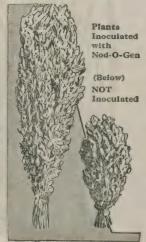

Thirty-five pounds makes a full feed for fattening steers.

A lamb will winter and thrive on three pounds a day.

There is no state in the Union where ALFALFA cannot be successfully grown.

A SECOND CUTTING OF GRIMM ALFALFA

# Dickinson's Humus Inoculation

Now you inoculate your alfalfa, clover, soybean or other legume seed without the use of water and still be sure of a growth of soil-improving root nodules as full and vigorous as was formerly possible to obtain only by the use of bottle or "jelly" type cultures.

Dickinson's New Humus Inoculation has been perfected after careful study and experiment in the country's largest commercial soil bacteriological laboratory. Each culture contains milions of vigorous root nodules bacteria living in specially blended humus substance which can be mixed with the seed dry, just as it comes from the can. Every can contains plenty of culture material to fully inoculate the quantity of seed for which it is intended.

Full directions are printed on the label. No skill or experience is required to get good results with Dickinson's Humus Inoculation. It is safe and easy to use and produces sure results at a cost of only a few cents per acre. Only a few minutes are required to inoculate the seed which can then be sown immediately. Many growers now prefer Dickinson's Humus Inoculation because of the handy form and the ease with which it is pred

This inoculation is put up for Alfalfa, Clovers, Soy Beans, Field Peas and Beans. Always mention for what crop inoculation is wanted

# Jung's Colossal Gladioli

These are mammoth sized bulbs,  $2\frac{1}{2}$  in. and up in diameter, and are for those people who want something extra special. The bulbs will grow plants 4 to 5 ft. tall and the flowers will be truly giant in size, many of the bulbs will grow 2 and 3 spikes of flowers. Only the very choicest varieties are used and whether you order 3 or a dozen bulbs no two will be alike. Only a limited quantity is available. Order early, 3 for 30c.; 6 for 50c.; doz. 85c., postpaid.

John Albrecht, Mich.—We had wonderful results from your seeds last year, were more than satisfied.

Mrs. F. Krause, Wis.—The Gladioli I had from you were the largest I have ever grown, all who saw them marvefed at their size.

Mrs. Margaret Mills, III.—I have had my best results with seeds and plants purchased from you, especially Gladioli.

COLOSSAL GLADIOLI

SCARLET CLIMBER ROSE

#### Scarlet Climber Rose

The size of flowers, profusion of bloom and dazzling red color make this one of our most gorgeous climbing roses. The flowers are large in size, very double and are borne on clusters of 5 to 8 flowers; as they are produced on long stems they are well suited for cutting and bouquets. Strong 2 yr. field grown plants: Each 35c.; 3 for 90c.

We guarantee all our plants to reach you in first class live condition.

#### FREE INSTRUCTIONS

With every order we include free a booklet of instructions on how to plant and care for Bulbs, Plants and Shrubs.

INDIAN SUMMER

#### Fire Bush

An unusually handsome shrub, growing to a height of 5 to 6 ft; most regular in outline and well suited for planting with other shrubs or as specimen plants on the lawn. The bright glossy green leaves change in fall to a deep rose color, particularly handsome in fall with its brilliant foliage and scarlet berries. Each 35c.; 3 for \$1.00.

Mrs. Warren, Kains.—I wish to thank you for the promptness and well packed shrubs, seeds and bulbs we have received from your Company from time to time.

#### Red Iris

Not many people are aware of the wonderful progress that has been made with Iris in recent years especially in red shades. So that you may have a fine assortment of the red toned varieties we will send you a collection of

#### 7 RED IRIS FOR \$1.25

These are large select plants, many of them sold for \$2.00 each only a few years ago. Each plant labeled.

Except where noted we pay postage. Please remember this when comparing prices.

BLEEDING HEART

FIRE BUSH

JUNG'S RED IRIS

# Giant Bleeding Heart

An improved type of the popular old fashioned favorite. The beautiful finely cut foliage and long showy branches of graceful heart-shaped pink flowers are always attractive. The plants are very hardy and may be used as borders or margins of shrubbery, also used quite extensively for cutting or bouquets. Does equally well in sun or shade. Each 25c.; 3 for 60c.

# Wonderful Everbearing Raspberry "INDIAN SUMMER"

From trials on our own farms we found this new Everbearing Raspberry so much better that we have discontinued all other varieties It is a heavy yielder both in early summer and fall, the berries are of large size and excellent quality. Bushes are very vigorous and hardy. Select field-grown plants: 6 for 45c.; doz. 85c.; 25 for \$1.60; 100 for \$4.75, postpaid.

#### Gem Everbearing Strawberry

This fine Everbearing Strawberry is sure to become popular. Plants set out this spring will bear one crop this fall, another next June and then again in the fall, or 3 crops in 18 months. "Gem"

produces vigorous plants that soon form a wide fruiting row, and bear abundantly. Berries are of good size, even and uniform in shape, deep red in color and are very sweet flavored. You will be pleased in every way with this "Gem". Strong, well rooted plants: 25 for 60c.; 50 for 90c.; 100 for \$1.40, postpaid.

GEM EVERBEARING

# Hansen Bush CHERRY

A Beautiful and Useful Hardy Ornamental Shrub

A beautiful hardy shrub that is both useful and ornamental. The bushes grow 3 to 4 ft. tall and bear a fine crop of cherries that are especially fine for jellies or jam. Especially resistant to drought and makes a splendid ornamental shrub. Early in the spring they are a mass of white when in bloom, later they leaf out heavily with silvery green foliage which turns to red and gold in the fall. Strong 2 yr. field grown plants: Each 250.; 3 for 650.; doz. \$2.00.

#### LAWN GRASS

Jung's Fairfield Special Mixture

ALWAYS GROWS, ALWAYS THRIVES, HARDY, DEEP VELVETY GREEN, SURE TO PLEASE

GREEN, SURE TO PLEASE

Our mixture combines the very best varieties of grasses, suitable for the purpose of making a lawn beautiful in appearance, durable and lasting, deep green at all seasons. The seed used is PURE AND HEAVY, and is especially cleaned. This mixture weighs from 25 to 27 pounds per bushel, is of strong vitality and makes a quick healthy growth. One pound of our seed weighs as much as two quarts of other seedmen's brands. It contains the right quantity of White Clover but no Timothy or other cheaper grass seed. Nothing better to be had. Lb. 45c.; 5 lbs. \$2.00, postpaid. Not prepaid: 25 lbs. \$8.20; 50 lbs. \$15.75; 100 lbs. \$31.00.

#### **Shady Spot Lawn Grass**

This is a mixture carefully prepared for sowing under large trees and other heavily shaded places where ordinary grass will not thrive. Lb. 50c.; 5 lbs. \$2.25, postpaid.

#### Fancy Wisconsin White Clover

For some lawns especially in poor clay soil, it is advisable to use White Clover liberally. For renovating old lawns it is especially valuable as it takes hold where other grasses fail. Fancy Seed: ½ 1b. 25c.; ½ 1b. 40c.; 1b. 75c.; 5 lbs. \$3.50, postpaid.

#### Jung's Giant Red Gladioli

There are so many beautiful Gladioli that it is hard to pick a single variety as being the best. However the red ones seem to be the most popular and if you wish something out of the ordinary order some of these bulbs, they will produce flowers of giant size and beauty in many shades of "red". Large Select Bulbs: 6 for 35c.; 12 for 65c.,
